PRISONAL CREATE, CREAT

Must Take a Chance

Common Market negotiations, between Britain and the original Inner Six, are at a crucial stage. The problem of future treatment of food exports from the Commonwealth and of food exports from the Commonwealth and it time stood, has it does not consider the commonwealth and the com countries to Britain is the point at issue. Normally, the time would come when farm produce Britain without duty, while food from other Brighal without duty, while food from other countries, including the Commonwealth lands, I call adoes bettering a countries of the Common Market countries. Since some of the Common Market countries. Since some of the Common Market countries is since some of the Common Market countries in the since some of the Common Market countries are considered to the British market to such goods as Canadian cheeses. New Zealand butter, Australian mutton and other goods upon the export of which the farm economies of these Commonwealth lands depend heavily.

Since the Common Market are willing to give present proposals of the Lone Sik for dealing with this question, he has an advantage over us. All we can gather is that the prigent members of the Common Market are willing to give good to be commonwealth countries if, atter 1970, understand the commonwealth countries if a commonwealth prime Minister Membes of the countries of t

to the problem. Such an indefinite proposal is hardly likely to satisfy those Commonwealth statement, such as Prime Minister Mendies of Australia, who view the prospect of Britain Joining the Common Minister and Prime Minister Mendies of Common Minister of Commonwealth Prime Ministery site fael, will share Mr. Mendies' reluctance to consider this an acceptable asleguard. In such an event, Britain will be forced to choose between the Common Market and the Commonwealth, and it would make the Commonwealth of Commonwealth of Commonwealth of Commonwealth of Commonwealth, and it would be forced to choose between the Common Market and the Commonwealth, and it would be commonwealth of the Commonwealth, and it would be commonwealth of the Commonweal be no surprise if she chose the latter.

All this is understandable, and perhaps unavoidable Vet it strikes us that even if an avoidable. Yet it strikes us that, even if an eminently satisfactory agreement were reached covering agricultural products after 1970, it would provide little more positive security than the highly indefinite proposal mentioned above. Who amongst us can foresee what world trading who amongst us can foresee what world trading conditions will be eight years hence? And does anyone suppose that, trade treaty or no trade treaty, any country will abide by terms of an economic agreement if this should prove ruinous to its own farmers?

economic agreement if this should prove ruinous to the own farmersty cannot be atteined by putching pen to paper. If there is any way to win it, it is by earning it through hard work. Countries like Australia, New Zealand and Canada, where land is fertile and plentiful, where farms are large enough to permit the economical use of the most modern equipment and where lattern expenses to the most modern equipment and where lattern expenses to the most modern equipment and where lattern cought to be able to produce farm products at a price which will compete in the world markets. If they are eventually shut out from some traditional markets by the ratisfup of tariff barriers, why by 1970 the growth of world population food in a dome other countries.

Some things have to be risked—but not the possibility that by requiring Brilain to stand

some things have to be ratked—out not the possibility that by requiring Britain to stand aloof from a potentially prolitable economic parternish with her European neighbors, we may be dooming her to become an econgmic backwater. That price would be much too high a one to ask her to pay—and we should have to pay a share too—in the name of Commonwealth loyalty.

Prices

Latest news on Canada's consumer price index is that it rose from 130.1 to 130.5 from index is that it rose from 130.1 to 130.3 from the beginning of May to the beginning of June. The Bureau of Statistics states that there were increases in the period in the costs of food, clothing and household operation.

If can be taken for granted that the next few months will see a gradual rise in living costs.

few months will see a gradual rise in living costs.

Not only are there the new tariff surcharges on
many imports, but the lesser value of the dollar
means we must-say more for everlyfuling brought
into the country. The situation will likely
affect even the price of breaf-since wheat has
gone up on the Canadian market because the
International. Wheat A agreement requires the
wheat board to charge the same price at home
are aborned.

The significance of man is that he is that part of the universe that asks the attempt part of the universe that asks the question. What is the significance of Man? He alone can stand apart imaginatively and, regarding himself and the universe in their eternal aspects, pronounce a judgment. The significance of man is that he is insignificant and is aware of it.— Carl Lotus Becker.

Strictly Personal Marriage Has Its Risks

Sport Slices ...

RARE, MEDIUM, WELL-DONE By GEO 1. CARVER, Sports Editor

Out of the weekend welter of words there fi emerged a decision. The first game of the champion-ship series of the Lakeshore Baseball League, senior division, will be played here on Friday night with the umps calling "Play Bail" at 9.15 of the clock.

There were more stories going the rounds than y wome of the first ill between the Kennors and King-ton kinged upon the outcome of Last Saturday's scheduled game between the Compress Combo and Crowley's Littleckers from Peterborough'. The Com-press and our side were all even points wise prior to the game.

Ole Jupe Pluvius throw a mankey-wrench into the plans, and between showers someoody got their signals crossed. Kingston went to Peterborough to play the tilt, but found no enemy forces on the battlefield.

They promptly claimed the victory by default The Petes said it was raining too hard when they went to the open-air stadium on the riverbank, and decided to call the game off. Kingston said it was not notified

Then came the \$64,000 question, with Ken Soden of the Kenmors in this corner and Frank Faice, the Voice of Kingston baseball, swinging verbal gloves at the opposite 90 degrees. When to start the death-or-glory series—and where?

pagers field a playoffs parley in Port Hope. The sen-division entries agreed that the finals would start on aday, July 30, between the teams finishing one-two.

The first game, naturally, would take place in the park of the team finishing on top whether it be on the banks of the Moira, in the shadow of the Pen, or on the tree-ringed diamond of Peterborouch's Riverside Park.

Mr. Palge was not present at the meeting. As if it mattered. He told Mr. Soden the series definitely would not start in Kingsten, Menday, July 36—nee would be agree to switch the date and play it here on Wednesday night.

Jim Cromble, of Bowmanville, the league presint, is somewhere up north on a flablug vacation, he vice-president of the league said the game would be played here Wednesday night if Kingston would not

And I understand OBA president Jack Carson was out of his Steepy Hollow vacation camp and his ad-a sought. Mr. Carson, it is stated, said if the two bs could not agree he would attile the issue.

Manager Soden offered to hold the game here Thurs-night, but was informed the Belleville District Soft-League playoffs had been arranged for the night, it went out the door.

Then someone, Paige., I am told, remembered that Kingston had scheduled an "Oldtimers' Baseball Games' in the Linestone City for Wednesday night, so that wiped out the senior inaugural in either city, but the Oldtimers' game was played last week

Paige is quoted in a Kingston story: *Believille's bining that league long enough and we're in the drivt now. The boys will be able to practice this will we'll open the series at Megafin Stadium."

And so it came to pass that eventually both sider withdrew their argumentative horns and settled or Friday night at the Belleville Fair Grounds, starting at 5.15; to give weary city merchants time to close the doors and count the day's awag take.

So there you have it. It's a three-of-five serie You'll have plenty of time to gobble the Friday fist cakes and French fries before game time. The secon till is scheduled for Sunday afternoon in Kingsie-starting two o'clock.

starting two e'clock.

Harness Racing Fan—We do not use unsigned letters your information there is a harness meet at the Fair, dnesday evening, August 15th.

TIGERS LOSE LARY alling pitching shoulder failed to respond to treatment. Safety First

Prompt consideration should be given by city council to the marking of pedestrian cross-walks, especially on Front Sitret, in a manner which will make their location and existence readily apparent to motorists.

As they currently exist confusion appears to abound. Pedestrians are not sure whether they are genuine crosswalks and motorists are not sure whether or not they should stop. The signs designantly the crosswalks are neatly excepted to the sidewalk and can be quickly notorist to the signs designantly the crosswalks are neatly excepted to the sidewalk and can be quickly notorist to be expanyed to the sidewalk and the sidewalk

group of resides antives.

In abort what is needed is a system such as is used in Toronto: overhead signs and lights of a distinctive color to advise vehicle traffic to proceed cautiously and keep a special lookout

for pedestrians. It was but a few days ago that one pedestrian was bit a glancing blow by a car whose driver did not realize unit loo late that a pedestrian crossing existed. It would only have taken a matter of inches for the pedestrian to have been injured rather than just bady scared with a ditty suit.

The crosswalks should be suitably marked so that they can be easily discernible no matter what the traffic or weather conditions. The days when local motorists stopped as a matter of courtesy to allow pedestrians to cross our streets are, alas, over. The need is urgent for well defined crosswalks before we find we have a fatal accident where a crosswalk is presumed

Deformed Babies

Forty deformed babies are now known to lave been born to Canadian mothers who took

the drug thalidomide.

This is a terrible toll to have exacted for a few hours sleep or release from nervous ten-

All of the mothers are being placed under a strain which must be many times heavier than that for the relief of which the drug was pretoat for the rener of which the drug was pre-scribed. Moreover, some of them appear in danger of suffering guilt complexes. At least one mother of a deformed baby has been quoted as voicing feelings of remorse whenever she chances to look at her truncated child. All this should serve to induce much greater

caution in the use of new drugs and much more exhaustive testing as to their long-term or side

effects.

Still, it strikes us that the average layman may be getting a distorted view of the problem. These thalldomide-induced deformities are not the only once normally met with in bables; and the birth of deformed bables is a much more the only ones normally met with in bables, That the britts of eloromed bables is a much more than britts of eloromed bables is a much more than the beautiful than the britten of the brit trated on her welfare.

trated on her welfare. We can only conclude that the limbless bables born as the result of the use of the drug halldendied may be healthy otherwise and that the uthappy physician finds himself unable to justify that kind neglet which possibly saves families from the task of rearing hideously deformed children.

If one advances confidently in the direction of his dreams, and endeavors to live the life which he has imagined, he will meet with a success unexpected in common hours.—Henry David

We are truly heirs of all the ages; but as homest men it behooves us to learn the extent of our inheritance, and as brave ones upt to whimp-per if it is should prove less than we had sup-posed—John Tyndall.

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

But what happens when a pair of young handsome Greeks, well versed in the arts, wiles and cute tricks of wrestling, find themselves signing a pair of bearing Busskys who are past masters in the art of mat skull-

Now this cannot happen twice in the same place, at the same time, in the same ring, on the same night. They'll need an arbiter with eyes fore-and-saft on a neck that has two revolutions-per-minute action.

The Grecian due are handsome, well-proportioned athletes, well-stuffed with muscle and ere. They are fan balters and love to strut their "stuff." They care little for fan reaction and have little regard for foe-man ability.

Both pairs of brothers have romething in co-esplie their tactics, they can wrestle.

The maich is a brang new departure from the usual pattern of wrestling cards. There is not a halowearing maverick in the "hall corral." There'll be four tought-toughts smoother in there battling to outlough and out-rough the opposition.

oing to boo who, and who is going to cheer who? For nea John Fan is on the spot, so to speak.

However, one can favorite will be here and he's the likeshte, loveshie frisher strong man, Timmy Gesharen. The popular Timoday hasn't been have for some time and he is always sure of a warm welcome from his many fan friends. He takes on George Kosti. Billy "East" Zones is back with the big bloods Beb

Somebody Was Cheating

Beginning August 1, the New York State
Thruway Authority will charge 10 per cent on
Canadian money offered for tolls of one dollar
or more. Previously, Canadian money had been
accorded to per-

Cashasian money ources for tous or one source or more. Percentuly, Canadian money had been accepted at par.

platin of this, although the charge is all completed at part platin of the same way; at least they have accepted the money at par for months.

The trouble is some people are not houset.

The trouble healthy sum.

healthy sum.

The Thruway authority claims it would lose \$20,000 if it accepted Canadian money at par. That is 10 per cent of \$200,000, and there are not that many honest Canadian tourists using the highway, before they have a chance to buy American junder. American funds

Need More Than Symbol

William D. Clark, director of the Overseas
Development Institute of London, England, told
the Canadian Institute on Public Affairs that the
British monarchy is "a symbol for us of our existence as a state and as a world state."

It may be possible to marshal arguments against this view, but the general reaction will be agreement.

When, however, Mr. Clark continued by stating that the question is whether this symbol "will give us enough confidence to go into Europe and be ourselves among countries not quite like ounselves," he seems to us to be talking nonsense. How much service can one expect

ing nonsense. How much service can one expect from a symbol, anyway?

To require of a constitutional monarchy, that it guarantee a country against the pitfalls of conformism is asking far, far too much. Even an absolute monarch might face such an assignment with treplation. This does not mean that the same apirt which has made the British cherish their crowned heads, when all about them were longing their, may not also serve to preserve their 'arf and 'arf, fish and chips, bloaters, public schools, clubs, pubs and cricket; pitches amongst; theirs and the proposal control of the contro schools, clubs, pubs and cricket pitches amongst the social jungles of the Common Market. But if this preservation is achieved, it will not be through the monarchy, a symbol, but through the people who cherish that symbol.

New Use For Tattoos

. New Use For Tattoos

A tattoo used to be the mark of a man, in some parts of society. It once held the same position on the docks that the nary bite suit before the society of the soci

Control of the individual by the state de Control of the individual by the state de-pends on personal identification, and this should be avoided as a matter of principle. But so much of mediciple is dependent on past records, that each person should carry part of his medical record with him at all times, readily available to accord with him at all times, readily available to according to the control of the control of the control according permanently, in a standardized lo-cation.

Broad acres are a patent of nobility; and no man but feels more of a man in the world if he have a but of ground that he can call his own. However small it is on the surface, it is four thousand miles deep; and that is a rey handsome property.—Charles Dudley Warner.

A harbor, even if it is a little harbor, is a good thing, since adventures come into it as well as go out, and the life in it grows strong, because it takes something from the world and has something to give in return.—Sarah Orne

Sport Slices ...

RARE, MEDIUM, WELL-DONE By.Gro P. CARVER, Sports Editor

A nickle gris you sen that Mickey Compoun, the veteran coach of the Kingston zenier baseballing bro-therhood, backgrounded by master-mind Manager Palge, tells big Chartle Pester to go out there and sie 'om' tonight at the Fairgrounds.

Our Kingsion Peter Gunn undergrounds that the big felfa hase's forgotien his somewhat dismal display against the Kenmors the last time out. The "Big Pest" whitted farce times, mishodyed a long fity that went for a triple, and dropped a game-losing right-field fity.

Tonight the starry bloke of the Limestone diamonds, baseball and softball, basketball courts, and practically anything else in the athletic realm will seek his revenge.

Pester, a former baseball pre is a pitcher of ne small degree, take that one any way you like. He can mooke 'em ever the plate with bullet-like speed and has an assortment of touce that has fooled many a good hitter.

I believe he will start because the Compeau-Paige nhination would like very much to tuck this first, sy-from-home game victory under their somewhat anti-ated uniforms.

Coach Sid Forster has other ideas. He will send Larry Soden to the hill-top and if Larry is "up"—and the squad with him—it should be quite a thriller.

This is the chipe-down aeries and both squads will be grared for viology. The Kenneer will be at full streaght, I understand, and if the tilt, is anything like the last one between these teams, it will be well worth the price of admission. Game time, 9.15.

Coveted by the cream of Ontario—and other parts
—lawn bowlers, the handsome Corbin Golf Trophy

When Is Canadian Old Enough to Vote?

A successful candidate in last June's fed-eral election recently confided to me a big factor in his winning. "The teen-agers in my riding were an immense help," he ex-

ulted. But he paired at my immediate questions. Why conduct these teen-kern cast their vote to help chose cleaning severance to help chose cleaning severance were the control of the cont

In other words, use inco-agers for the backbrowking feet of sealing-words, delivering handling, or went down. One List the composition, of the control of the sealing words of the control of the control

TRIWT WOLE

Reports I've heard are that the Popeye — our latest dance mick — is fun for an evening but it is unlikely to topple twist from its popularity throne. It case you hadn't heard, you place your right wrist against r forchead, your left wrist in the small of your back, and

lowly convolute.

The movements, all detailed in Eddie Bo's record Popeye rave one wondering if the partners are failing saleep, Most between several entered and an analysis of the sale considerable of the partners are failing saleep and compipe.

The bellibotiom trousers which some Popeye addicts are frecting out up to \$23. But even without he cost I depredict at this will be a dance of the past by fail while the living the sale of the partners are sales of the partners.

to the time will be a cance of the past by all white the wall is still going strong.

Which reminds me: have you tried the Mashed Potato, the Locomotion, Surf-Stomping, Bach and the Snake, or the Watusi yet? They're all little known variations of the twist.

Cur congratulations to In-Typer-old Caron Sherb of the ist SL Laurent A.F. Ranger Squadron in Montreal — the first girt caple in Canada to receive a flying scholarnily. Caron, who is gloigh trough trialing ist Montreal—Typer Cink with at other easier, received her scholarnily joinily from Sounds as if (it been an interesting aumner for her thy you feel that you've had some interesting or unique experience, we'd be delighted to hear from you.

(Windt, this space next week for the latter on wigs for energying the productive proceduring for Canadian business, You may file your wig after reading (it).

methods used in the days of the British Raj

with the "ravel Bureau"

With the "ravel Bureau"

Colario, at itself.

Colario, at itself

Whether this is an improvement over the methods used in the days of the British Raj will be largely a matter of opinion.

Earlier methods, while perhaps involving greater dangers to the lives of the inhabitants and the peace-making forces, were certainly more speciacular. Yet, strangely enough, in most instances they got less publicity, select of the peace of the pea Kashmir, Angola, Korea, the Gaza Strip, twelve-mile territorial limits, nuclear tests and armaments, to mention a few—that it is a wonder anybody is left available to run the domestic affairs of the world's governments.

NATURAL GAS ... of course

- (1) There's no wasteful warm-up period with natural gas. You get instant heat, when you need it, for cooking, water heating, clothes drying.
- (2) There are no extras to pay for either. The gas line to your home is installed free. 24 hour maintenance service is also free.

Natural gas makes every penny count. It also provides clean, quiet, and safe per-formance. Ask the man from Lakeland or your heating contractor to show you how. LAKELAND CUSTOMERS ENJOY THE LOWEST NATURAL GAS RATES IN EASTERN ONTARIO

D. T. STORK

Consider Proceedings of the Constant State of Constant State of

An Idea for 401

The New York Times reports that motorists a test stretch of the Garden State Parkway in New Jersey, now have a service often needed by motorists on our own 401. As an experiment, radio call boxes have been set up at five mile intervals along the road. Like the World War Mar II rescue radios, this system is operated by turning a crank, providing power to the transmitter to send a coder message. When the message is received at police headquarters, a patrol car is sent to the call box.

The system is similar in concept to, if less sophisticated than, the Royal Automobile Club's telephones along major English highways. The RAC call boxes provide a direct line to the club headquarters, for motorists in distress.

headquarters, for molorists in distress.

If the molorist cannot reach a call box himself, he waves a handkerchlef to passing cars.

welf, he waves a handkerchlef to passing cars.

While drivers may not choose to stop and offer is a lift, they will usually stop at the next phone and call in the location of the driver needing the control of the control of the drivers of the control of the contr low densities of population common on this con-tinent. But radio call boxes, of the type now being tried in New Jersey, might provide an acceptable substitute.

The patrol cars offered by the Department of Highways are progress, but the department just cannot afford enough patrols to cover our highway network properly.

Sabotaging Itself

We are now eagerly awaiting fiews that Prime Minister Verwoord of South Africa has been charged under that country's anti-communism law.

The case against him is overwhelming.
The Soviet Government expressed its displeasure when Borls Pasternak won the Nobel prize for literature for "Dr. Zhivago." This action brought the communist regime into con-tempt in many circles. The South African Gov-arnment has now decreed that it is unlawful to publish any statements, past or present, by Aipublish any statements, past or present, by Al-bert John Luthuli, Zulu Nobel prise winner. The South African Government is thus treating Luthull like the Soviet Government treated Pas-Luthull like the Soviet Government treated Pas-inerak. Quiet clearly, Prime Minister Ver-woerd's regime is saying that the communists were justified in their reaction to 'Dr. Zhivago.'' It is thus extending much-needed aid and com-fort to them. Therefore, it is guilty under its own anti-sabolage law. The least the courts can rule is that the penalty be the same as for Luthull—that nothing the government says, or has said, can be made public. This would in-clude its statement that Luthull's words, past and present and future, are banned.

Freedom to Hate?

Tom Iremonger, a Conservative MP in Britain, has been given leave by the British House

tain, has been given leave by the British Rouse of Commons to introduce a private member's bill to amend the 1988 Act governing public order. Under the Act, British police have authority to stop any public meetings when disorder occurs, but they have no right to prevent assembly for a meeting. Mr. Iremonger's bill will give this police the right to break up or prevent any meeting planned to "incite hatred of any racial grown".

*In England, where personal freedom and inreging are so respected that a police officer arresting a vagrant or thief will address him as "sir" such a law is bound to run into some opposition. Many Englishmen not all of them fascists, will consider the law an unjustified vio-

lation of liberty.

Quite sol The law proposed by Mr. Iremonger will likely be considered as intolerable in a free country as, for example, the law against owning slaves.

It ought to be the happiness and glory of a representative to live in the strictest union; the closest correspondence, and the most unreserved communication with his constituents. Their wishes ought to have great weight with him; their opinion high respect; their business unremitted attention. It is his duty to ascritice his repose, his pleasures, his satisfaction, to their; and above all, ever, in all cases, to pre-fer their interests to his own—Edmund Burke.

I do not know what I may appear to the world; but to myself I seem to have been only like a boy playing on the sea-shore, and diver-ing myself in now and their finding a smoother pebble or a prettier shell than ordinary, whilst the great ocean of truth lay all undiscovered before me.—Bir Isaac Newton.

RARE, MEDIUM, WELL-DONE

By Gro. H. CARVER, Sports Editor
Track and field white give premise of emerging
the toddling reaks to a growing remarker, bold
topped and speciator-wise, is stretching its wings,

perclipped and recelater-wise, is stretching lie wings; The sport is noting a market recurrence all over the country. And the exploit of top Canadian stars like country. And the exploit of top Canadian stars like others, are not closely the producting products, among others, are not closely the producting products, and closely the product of the percentage of the sport. Hard-working conclus, it is reported, are meeting with responsive success on the part of student stillates.

Here in the city, Sian Barbour of BCHVS, Dave Bell:
of Mobra Secondary, and Jack Siasov of Quinte Secondary, along with Albert College, OSD, and Nicholson
College sports' mendors have done and are doing outstanding jobs in bringing the importance of track and
field home to student athletes.

The result has been the winning of District an entral Ontarie Secondary Schools Association chances of the Country of the Country Schools association country by schools here. OOSSA's Quinte district done right well for itself, thanks to hard-workin entors and eager co-operative athletes.

Secondary schools coaches hold intensive training sessions preparatory to COSSA district meets. Both male and female athletes vie for positions on the representative track squade. The goal is the district title—then on to the COSSA championship meets.

Unfortunately, elimination from district cham-pionships, and success or defeat in the COSSA meet, meeting the end of track and field activities until the following season.

This constitutes a problem for those inte-meeted in the sport.

Other districts, I am told, have found or are find-ng some solution. Otherwa and Peterborough second-ry schools are holding twilight meets both at home add in inter-city competitions. This not only relating modernt interest but keeps him in ahape during the

A full scale program of events are on the schedule loss and it is expected a large number of the fine secondary school athicts who look parl in COSSA have control at large and the control of the control have entered at large and the control of the control of the Cornella curies absolute contact. Mr. Deçna at the Recreation Centre immediately.

Deales, distance runs, herdles, and special field events are on the proposed meet agends. The hurdles, and of the more speciacular track events, have never been stayed here to my knowledge. As a suggestion to those in charge, the hurdles could be run in front of the grandfased giving specialors the benefit of the roos in their entirety.

The general track and field meet, I understand, is theoduled for Tuesday morning, August 14th. The undies, as a special attraction could be staged one even-ge between regular scheduled events and give grandstand eventual country of the stage of the property of the stage of the

Picton, Tweed, Marmore, and other secondary school tres which hold fall fairs could take the track and field

It could lead to future district meets at the fairs, and hese with the twilight meets in off-seasons, would go i long may in keeping the student athletes in condition, and give the growing popularity of the sport another.

Hiroshima's Dead

J. M. C. Duckworth and Victor A. Hartlen faced each other at the foot of the Halifax war memorial on Monday. Mr. Duckworth was faced each other at the foot of the Hallitzs war memoratian of Monday, Mr. Duckworth was chairman of the Hallitz Committee on Nuclear that the Hallitz Committee on Nuclear the Hallitz Committee on Nuclear the Monday of the Hallitz Committee on Nuclear who died at Hicohima 17 years ago., Mr. Hart-len is head of the Social Branch Nr. 25 of the Eopal Canadian Legion., Mr. Hartlen did not want the wreath laid. Yim our opinion," he add, "it is not appropriate to lay wreaths on our committee in the Committee of the Monday of the committee's intention to dishonor Canadas's war dead, but rather to impress upon people the need dead, but rather to impress upon people the need for immediate disarmament.

We find ourselves in agreement with both Hartlen and Mr. Duckworth—and we would not be a bit surprised if the two gentlemen each had a certain sympathy for the other's point of view, for they talked briefly and then the comnted itself with placing its wreath

a nearby flagpole.

Time should heal the hatreds of war, but there is no reason why we who are living should lose sight of the fact that those Canadians who ided did so in a cause which they believed just. and which most of us who were of mature years at that time also believed just. The men who fought against them may have equalled them in lough against them may have equalited them in patriotism, and in valor, but they were fighting for a bad cause. Therefore, we should not honor the war dead of our foes in precisely the same way, and at the same monuments, as we honor

own war dead.

But-those who died in Hiroshima have, or should have, a special place in the hearts of all men. Though they were our enemies, they were also our fellow-men and the first to experience the horrible death which now threatens all mankind. Whether the U.S., and its allies all mankind. Whether the U.S., and its allies by their implied consent, was justified in sending 78,000 people to death in a single explosion, whether this act was necessary in order to abord-en the yar, and the ordeals of hundreds of thousands of other men and women and child-tran, is a point open to debate. What is not debatable, though, is that few of these 78,000 Zepanes could ever have been personally guilty execution, a lost retribution. The contraction of the execution, a lost retribution. The contraction of the execution a just retribution. They were the victims of mankind's sickness, just as surely as were the Canadian war dead, though not in

the same way.

To honor the one at the memorial to the other would be to confuse the issue, but by reother would be to contact in sate, but by re-membering the dead of Hiroshima we are not in any way dishonoring our own war dead. These dead, hoping and believing that they were fight-ing the world's last major war, would if they were alive be amongst the first to join in praying as we all must, that the world will never see another Hiroshima,

Water Safety Regulations Enforced

Although we do not like to see legislation which serves to restrict the freedom of the indi-vidual we do approve of the passing of such laws as may require an individual to meet his re-sponsibilities in his relationships with other sponsu.... individuals.

It was, therefore, a most welcome change when teeth were put into the laws devised to promote safe and sane boating habits by including these statutes under the Criminal Code of

Recently a man in Kirkland Lake was senced to 10 days in jall for having had 10 ple in his boat with but three life-saving effects to a second the second that the second

which is his responsibility as captain of his ship even if it is a 10-foot punt, then the law should

even it it is a 10-foot punt, then the law should, come into effect to either ensure their protection or his punishment for neglecting it.

Although regulations regarding boating safety have not been non-existent for the past years, they have been either hard to enforce or disregarded. Now that they are under the Criminal Code every peace officer is obliged to ensure their enforcement and that is what has been their enforcement and this is what has been needed for a long time.

When it comes to the safety of persons in

when it comes to the gafety of persons in an element as dangerous as water can be, there should be no room for foolishness. Every popu-lar boating area should be effectively and regu-larly patrolled, just the same as are our high-

Now before I sailed it I'm is no deep I just card upt I ill I will her outright, her compenious will get med at and saddenly I'm loomes very unspecies. Can you engoest a way from to get har off my beek food getting controlly with I'm the side injurish per how one of the sail of the one of the sail of the one of the sail of

DEAR WORRIED—Do you mean you are alk life, at fourteen?

It seems you were hormoughed into this. The girl in the case know were you'll what she has done. It here are hor were to have here had not a seen as the lines needed years to be able to take a blint, you will have here here had not been a seen as the seen as the serious with her. Neededy but a moren will stay mad shoot such a thing at the right as like little mad shoot such a thing at the right as like little mad shoot such a thing at the right as little made shoot such a thing at the right as the right will be the comes for the bride to put it to his finger.

TO NIES II—The own weeding though may by midd out to both recipients. Just much earty they both endories in If it it made out of your hundreds assessme and a girl card withing the happy couple wall, and both sign it.

(There are Canadian resources to meet your need. Let Doris, a trained social worker, lead you to them).

SOCIAL AND PERSONAL

Your quickest, easiest way to get the most complete and accurate knowledge of what is going on in the world (and utof it) is to follow the example of this little lady and read your newspaper thoroughly, thoughtfully. The latest happening across town . . the momentous event across the world . . the newest satellite circling high above it . . you can 'read all about it' at your own convenience, at any hour of the day or night, at your home, office, or on the bus . . . In your newspapers.

the repeat of the control of the con In Daily Memorany Approbations Memoral of

Fleming's Demotion

Fleming's Demolion

There will be a thousand attempts to read something significant into Prime Minister Diefmibater's calculate thumbs. As specinistion, all semiplates and something significant into Prime Minister Diefmibater's calculate thumbs. As specinistion, all something significant into Prime Minister Diefton and the semiplate of the semiplate of the prime Minister's throughts.

The chief pussis, of course, is why Domaid

The chief pussis, of course, is which the pussion of state for external selfurs, it ranked above the

finance minister, at listed in the Canadian Al
man in practice, the foreign ministry, in

Canada at least, is likely to be considered a post

spart from the remainder of the cabinet. Its

Courselin many make it the anti-coron of the

prime minister's chamber, as did Ri. Rion, Jonis

many be regarded as the butuness acction of the

cabinet—dinarice, trade and commerce, trans
port, public works, health and welfare, agricul
ture, mines—is likely to be scant. It is towards

the finance ministry to which most cabinet

ministers climb—and from which they fall.

"dissattifaction with their work and a their

cown request—the finance ministry is so arduous

a post that many a man would be happy to

reliantly, however, is one of those men who make

a piesaure of work. It is difficult to believe

that he would ever give up his portfolio by

critical properties of the course of the prime minister wanted him to go.

It follows that he lost his post because the

me Minister wanted him to go.
On the face of it, there is a simple explana-On the face of it, there is a simple explana-tion. Mr. Telming had been finance minister since Prime Minister Diefenbaker took office. After five years in office, Canada was confronted with an acute monetary crists. Therefore, Mr. Firming's policies had proven faulty. Thus a change in the finance ministry was not only desirable but importative.

desirable but imperative.

The flaw in this argument is that, though Fleming was known as a man who fought act, rieming was snown is a man who rought for his own opinions, nobody can visualize Mr. Diefenbaker as a prime minister who would permit a subordinate to follow policies of which he personally disapproved. It follows that Mr. Fleming's errors were the Prime Minister's er-

This leaves us with the necessity of making

hoice between three possible explanations.

1—The Prime Minister has seized the first opportunity to demote a man who opposed him for the leadership of the party, who is regarded as the leader of the party's orthodox or conservative wing and with whom he enjoyed no fellowship.

2-Or the Prime Minister, has altered his

mind about policies followed in the past but finds Mr. Fleming still faithful to them; or, vice versa, the Prime Minister clings to his past beliefs while Mr. Fleming's views have

3—Or, and perhaps this is most likely, there we is no deep difference of opinion between Mr. he freming and Mr. Diefenbaker, but the latter thought it best, for appearances sake, to change the man at the helm of the financial ship.

Alone in the Night

Alone in the Night
There were two commonly-held theories
about Marilyn-Monroe. One, most widely held,
was that she jeas a dumb blonde whose physical
propertions chanced to appeal to the lust in men
for all they were worth, wriggling her voluptance
body through dumb-blonde roles because all
else was beyond her acting ability.
The second theory was that she was a-very
smart wordan, sleinted enough to portray dumb
blondes with that certain added spice of sunfacwiding that he might have been blessed to
know somebody like her.
Her death in not likely to settle the army-

know somebody like hir.

Her death is not likely to settle this argument. Those who regarded her as a dumb blonde will see their theory proven, maintaining that only the dumbest of blondes would have taken her like when she poissessed all that morey—and all that see a speal. The rest will remain certain that dumb blendes do not kill them-selve the sum of the seed of the seed of the whole of the seed of the seed of the whole of the seed of the seed of the whole of the seed of the whole of the seed of the seed of the whole of the seed of the

Who Should Wear The Trous

DEAR DORIS—What do you think about women wearing itacks or aliminar! I seel so treed in them when I'm working around the house, but my husband says they are mannish... NEWLY MARRIED.

DEAR NEWLY-LI you have to climb fences or rained on your bend, were them. Otherwise, bend over bockwarfs (as it were) to wear femiliable, frilly dresses.

Any handsand who has sense DORES CLAS could be a compared to express preferences deserves to be listened to the country of the country o

DEAR CANADIAN—Not too thoughthil, perhaps. Its understandable. This is their mother tongus, and the figure they are among riends, will be your Friends for the Could you learn a little, will be your friends for the first and the country will be appeared. Form master they are the country would expense the country would expense they have you might find them becoming precious friends in the process.

DEAR DORIS—I am in the early thirties. I had a hyst-ctomy a few years ago and life into the same. I have children but I have no more sex appeal, left. So I was wondering if this occurs in a operation like so could it be something that needs a doctor's care? I, se a wonderful and understanding husband—ALLY.

DEAR SALLY—Once healing is complete, sex rela-tions are normal. This is the verdict of experts.

If you need a lift, or a lond, or some other undis-covered thing, it's off to the doctor with you. That-un-derstanding husband deserves the best.

(Don't just muddle along. Do something. Write your problem to Doris in care of this newspaper, enclosing a stamped, self-addressed envelope.)

Sport Slices ...

RARE, MEDIUM, WELL-DONE

By Gro. H. CARVER, Sports Editor

In fact it seems the withdrawal of Kitchener from EPL ranks this season gave the Windsor-Chatham ligators of the pay-as-you-play ranks a needle in their phesied success arm.

Window Star Jim McKay wrets: "The Eastern loop with only four club, appears to have very little future to speak of. President John Urle has been quoted as saying: "the beque will be stronger in the 1862-64 neason",—which must qualify as one of the most riddeclose statements of the year."

ment reteneues sistements of the 7427."

I cannot see where the new Eastern per set-up, as, will be as strong as last year. In fact I do not think will even approach the calibre of heady as blaved in a circuit last measur.

At the measures there are these definite dube. At the measures there are these definite dube. In the case of the calibre to be anneamed. There is talk of Byransia, Tuded, sic. The proposed age limit will bring the calibre to a justice "A" plus status, and as one local pockey velocing suit is, "perhaps being perhaps one for limit the calibre to a justice" "A" plus status, and as one local pockey velocing suit is, "perhaps being, perhaps one for limit in the perhaps of the perhaps being the perhaps of the perhaps o

Besides the season calls for interlocking gam with an amsteur group, the United States Internation League, rated by hockey men as senior "A" mim This doesn't reck of added strength to meet people.

However, be that as it may. The S.S.L. (senior saled loop) is rolling merrily along, according to pressorts from the Western Ontario incubator.

sporis from the Western Ontario incubator.

It asys here: "With the Beavers moving out of Kilchemer it would appear as thought a strong K.W.

senier "A" dish with last pure below in a strong K.W.

with the control of the control of

But a \$50,000 budget is causing a little head-scratching some parts. Talk as they like, the Western Ontario ms in senior hockey last year played to arenas where try boardshot had an echo.

The Waterieo Tigers were on the verge of fold.

The Gali Terriere, Allan Cup champions had re reading about them than westofing them. Chattan averaged far less than 1,000 pewsiers per game.

The feeling is that Windows and Chalbam with arenne can handle the situation. But, the story so, can the others with smaller arenne spend enough may to bring in new sizes yet try to held expenses we so that they won't take a bath?

cown no uns they went take a posser. Service 3 mg Market thinks he can. He my his scienal deficiel has your was \$115 but presentent and gimmless make up sanders \$3.000 less. Went his scient present the presentation of the presentation of the presentation of the presentation of the better in the loop, but they took it on the firmatch better in the loop, but they took it on the firmatch politics.

Il result.

VICTORIA and GREY TRUST COMPANY

BELLEVILLE, ONTARIO

THE ONTARIO INTELLIGENCES

of The Canadian Daily Sweepsper Appointion: Mandala Proof; Months of Circ The Ultimate in Isolationism

The Ultimate in Isolationism

Retugees from Tristan da Cunha, the tiny volganic Island in the South Atlantic, are eager to return to their isolated horiseand. Despite their cordial reception in England, they long for the primitive conditions of their native, site. Although there is no certainty that the volcano which drove them from their homes will not crupt again, they have been fighting hard to get england, they have been fighting hard to get any of the conditional to the conditional to the New York Herald Tribuns.

"But if their lives were hard and confident,"

"But if their lives were hard and confined", concludes the Herald Tribune, "the islanders were untroubled by wars and rumors of wars. Their economy had little cash in it, but a fair degree economy had little cash in it, but a rar degree or rudphently. They lived as a family, and were healthy and long-lived. The complex world of England is strange to them. And who is to say, if they go back to that island that seems so lones of the crowd, that they have not chosen the better nart??

This argument seems to us to deal adequately with material issues, but to ignore a complex philosophical problem. What sort of people would be willing and eager to isolate themselves not merely from the material comforts of modern living but also from the main-stream of human life? Surely they must be either duil-witted or hedon-ists or devoutly religious. For the only creed which would make such a life rewarding to sensi-tive Kuman beings would be an unshakable conwittin that man is placed here on earth to pre-pare for a life in heaven. Granted that, it mat-ters little where he dwells during this period of preparation for eternal life. But for a senative man, such isolation from mankind would be in-tolerable without such a conviction. He could not, as H. G. Wells did, substitute for a belief in the importance of the individual a belief in the importance of the race. It is difficult enough to find an argument to support this view in any case, if we rule out the existence of a deity, but case, it we rule out the existence of a delty, but it would be obviously abund to suggest that a small group of people on a wirtually barren island can possibly be contributing anything of signifi-cance to the history of mankind. They may ar-gue that this holds true of many or most of the rest of us, in crowded lands, but there is always the possibility that some one of the many projects we undertake co-peratively, as a community or contained to the companies of the contribution of the contained of the contribution of the contribution of the possibility of the contribution of the contribution of the possibility of the contribution of the contribution of the possibility of the contribution of the contribution of the possibility of the contribution of the contribution of the possibility of the contribution of the contribution of the possibility of the contribution of the contribution of the possibility of the contribution of the con or on a desert's wastelands, there may be evolving new men or new methods destined to figure large-ly in man's future history. But a small group of people on a lonely isle, already so inbred that they are more-than normally subject to certain di-seases, obviously has no significance to the future seases, ovviously has no significance to the future of the human race. The desire of these people to return can only make sense if they look upon this life as the preparation for the next or if, convinced of the ultimate tutility of all life, they feel that this one can provide the most pleasure and the least pain if passed in an Atlantic soli-

What Golden Years?

The Ontario Intelligencer runs a weekly col-umn entitled "The Golden Years", It deals with problems facing those who, after a lifetime of work, are planning their retirement.

work, are planning their retirement.

'The Golden Yearn' suggests that old age is a time of happiness. This is a common supposition today. Not is it fostered merely by various commercial enterprises, catering to the old, including, of course, columns dealing with their problems. Long before they came into existence, the poet was talking about "the last of life, for which the first was made."

We have demands this reads if sending the contractions of the contraction of the contraction

which the first was made."

Yet how strangely this reads if we chance to have been perusing Michyl de Montaigne, the famous gatteenth-century Firends easysts. In his early filties, he was prepared to concede that his property of the stranger of the stranger of the property of the stranger of the stran that the sky was never as bright. One does not have to join the cult of youth worship to admit that the passing years do diminish us, reducing not only our physical and, perhaps to a lesser degree, our mental powers, but also duiling the edge of our appetites, a result which fools welcome but wise men like Montaigne rightfully mourn most of all.

It is really not the most important thing in foreign polley to come up with a new idea every week or so.—West German Chancellor Konrad Adenauer.

Sport Slices ...

RARE, MEDIUM, WELL-DONE

By Gro F. CARVER, Sports Editor Directors of the Belleville Fair are emphasizing in their entertainment agenda this year. Three tanding sports events will mark the front-of-deliand evening entertainment.

A fourth attraction which partly comes under the ead of sport is an outstanding ice-skating attraction staged x-a miniature rink. This will be oftered Wednesday iternoon, Thursday afternoon and evening.

These hellions of the dirt and other tracks, the schike boys, will vie for championalips on the tracks Manday evening as the sports opener, or well-known riders from all parts of the province

For the first time in many years, in fact the in-teral, as far as I am concerned, is the card of pre-denal wrestling which features the grandstand show Tuesday evening.

Harness racing meets held under the sponsorship is of the Quinte Riding and Driving Club this summer said to have been a success with the guitic showing ed interest in the sport.

ume of the finest pacing and tretting horseflesh s province will be here Wednesday night and is are leoking forward to an evening of thrill-seely-contacted heats. Parl-mutuel betting will

Eight open events, including dashes, distance races dies, two field events, are included on the agenda, a feature will be the Meed Mile, the winner receiving Meed-Johnson trophy.

Outstanding secondary school track and field athlete entered in the meet. Spectators should keep their s on youthful Bill Vermilyes, ture dash and distance ner of this city. He entered five of the eight slated

Potential fair pairsus abould not miss this op-mity of seeing some of the finest young track tes of the city and district in action. The sport pidity growing in popularity and even the rankest an will thrill to a close break-the-tape finish.

The wrestling eard will not only produce some of the best expensent of the sport, but will have a sideline of serio-comedy. Outstanding, of course, is Shipper Billy Watson, the British Empire champion, who is festured in the main event with the "Great Knds," a genifeman of Japanese extraction.

These "ministeres" provide a show that provides we wrestling, as well as aide-splitting comedy, midgets, weighing around 190 pounds and four in height are fast, clever, and crowd-pleasains, y are extremely popular wherever, they have per-

Whipper Billy Watson is not only the outstanding stater of the Donjinion, but has proven his mat power challengers from the Empire. Including 1ar-off In-He has held the world heavyweight title and was ed the outstanding athlete of the half-century in the cellaneous sports bracket.

Walson is genuinty and wholeheariedly interested in this life-saving project, has spoken in hundred or schools accrete Gaussian to the subject and is in nonstant demand as a speaker on safety and georts at lower groups, lather and so in hanguts and service-labs. He saver revises such as request, whenever his compression of the saver revises such as request, whenever his compression of the saver revises such as the same for this important such pressible subject to the same pressible subject to the same properties of the same pressible subject to the same properties of the same properties of

Fair Opens Today The Belleville Fair opens today.

Once again, it offers something for every

Evening performances before the grandstand will feature the Ontaria championship motor-cycle races tonight, professional wrestling on Tuesday, harness races on Wednesday and an

ice jamboree on Thursday. The ice jamboree will also be staged in the afternoons on both Wednesday and Thursday.

Wednesday and Thursday, the main de-light of the young and of those who wish they still were young.

There are a flower show, art exhibits, dis-played chardforart, merchanic exhibits and Juntor Farmers' competitions.

But the main business of the Full remains the exhibition and judging of horses. cattle and

the exhibition and judging of horses, cattle and other livestock.

A modern fair, while it stresses entertainment, still fulfill an important function for the world's one truly base infustry—the business of raising the food on which we all depend. It is a farmers' showcase and proving ground. The Belleville Fair deserves support. Providing it with its deserts involves no sacrifice but its a sure way to enjoy an educative and entertaining afternoon or evening, or both, or several of each.

several of each

Something Wrong Here

The Ontario Department of Economics and Development will conduct a survey in Belleville next week, to determine whether a public, or subsidiated, housing program is needed here. We have no intention of attempting to will be survey in Belleville and the subsidiated housing program is needed here. We have no intention of attempting to Sill, we think it timely to polit out that families with incomes of not more than \$4,300 a year may qualify for ruch subsidiated housing. An income of \$4,300 a year is provided by a weekly wage of just under \$2270. This is well above the wages received by many heads of the property of the subsidiated housing. An income of \$4,300 a year is provided by a continuative lawges and salaries for all of Candad, if our figuring is correct. (Last summer the average wage in manufacturing industries was \$74 and the industrial wage industries and the industrial wage in the low-income range. Instead, what is required to pay the going varies for rents, then there is something seriously wrong. What is required to pay the going rate for rents, then there is something seriously wrong. What is required to pay the going rate for rents, then there is no melting seriously wrong. What is required to pay the going rate for rents, then there is something seriously wrong. What is required to pay the going rate for rents, then there is something seriously wrong. What is required to pay the going rate for rents, then there is no melting seriously and the payment of the pay with an average wage—an investigation into such things as real estate taxes, land costs, con-struction costs and landlords' profits.

Tax Evasion

Tax Evasion
Money seems to be the main theme of the provincial premiers' conference which just finished its bird amunal session in Victoria, 8.0.
This is a traditional political problem, but it has taken at least one new spece with the provincial sales taxes now imposed by almost all provinces. Buying in one province, effective game to dodge taxes, and it seems to work. Premier Jean Lessage, of Quebec, said that under present legislation an Ontario woman, for example, could buy a \$5,000 mich cost in Quebe, have the merchant ship it to her home in Ontario, have the merchant ship it to her home in Ontario wom the control of the co

The system works efficiently only for expensive purchase, of course, but people are bound to try it even if they lose money by their attempts to save. Mr. Lesseg, by his efforts to prevent this inter-provincial trade, is working more for the benefit of the people hand they are likely to realise.

The system of the state of the s

I forget who it was that recommended men for their soul's good to do each day two tanings they disalted . It is a precept that have followed accupulously; for every day I have got up and I have gone to bed —william Somerset Maugham.

There is a wisdom in this beyond the rules of physic. A man's own observation, what he finds good of and what he finds hurt of, is the best physic to preserve health. — Francis Bacon.

NATURAL GAS - that is ...

Natural gas is so clean because the products of its combustion are carbon dioxide and water vapor, both of which are present in the purest country air. There's never any soot . or grimy film settling over furniture and covering walls, when you heat or cook with natural gas. Natural gas also provides quiet, economical and safe performance. Ask the man from Lakeland or your heating contractor to show you how.

RARE, MEDIUM, WELL-DONE

By Gro. H. CARVER, Sports Editor

There were at that 100, give or take a few, gold
widowers that I know of, who on Saturday cooked their
worn dinner, had it at a hotel, motel, resort or wayside
himburg inn-and liked it.

A few of the hardler once braved the almosphere of the Country Chh. as around a non-rearned version of the Country Chh. as a recent a non-rearned version of the third of part is price of party segments to Lower Globberts, Khrushcher's chances in the up-to-leave the Lower Globberts, Khrushcher's chances in the two countries and the countries of the Countries and the Coun

They were buddled around the table when I joined m. They appeared to be there on sufferance for it is ladies day to take over the club and the course—they did a right noble job of it.

Later it looked out they had anesked in a four-some on the links. They were, in deference to the Ladder Day at the Cha throughouter, Clare Hopwood Jones' habby "Hoppys", Mrs. G. H. Trill's gall pred-ders "Bade", Mrs. Vall Smills's "Vall" and Mrs. All Wilsen's railroad cross, "Alex". Heather Keichessen's del and I were paid conversationalities.

Fit, tanned and hearty. Mr. Wilson admitted its as his 64th birthday. He also admitted his score was i. He did not say whether it was fer one hole, nine sless, two weeks or the season. There was nurmared margrounent when he suggested it was his late-after-sen 12-hele care.

Inside the clubbouse some 130 ladies were celebrating the conclusion of a very successful Women's Field Day, Ripples of applause and cries of congratulations broke periods of silence as the awards were presented.

were of silence as the award were presented.

Wessers's precision Mir. Ean Corte and rannel couples first. Agree Walker can take a bew, for was-dering through the broken ranks of the indice during taker post-tegramment estbrations in search of the final scores. I overheard many fleet tributes to the excellence of the internet, and its arrangement, the first sopisitality of the lost taking, the handsome prince and, saids is pro George Baizan, the near-perfect om-dities of the course of the search of th

Later I learned that one of the more discussed topics of Country Club conversation is the emergence of youthful Gary Bowerman from the cocoon of links adelescence to golfing manhood.

The former junior club champion, who is in the fina nd with Mike Aquafredds for the current men's cham-nahip, has flashed signs of fine potential this season

"He has put aside and forgotten the vagaries and whims of a minor gafer," George Balaxa told me, "and is alsowly, but surely, bioseoming to a fine got-ing adult. I look for big things from Gary."

Gary, the 21-year-old son of Sieve and Joy Bow-erman, showed signs of a fine potential when he was a minor minor, so to speak. He leved the game and later concentrated on it.

He has played in many district tournaments and last ear came home with the top award of the Brockville Jountry Club's Men's Field Day

This year, in a brilliant effort he faunched some his real potential when he shot a par-breaking 48 a fournome, setting a new record for the 18-hote

I am fold Gary would like to become a golf per-feasional and is making plans toward achieving kin scol, life has a lot to kear—and known it. But vei-eran Zolfers tell me the, slim youngster has the pos-sibilities and potential and with peoper training, con-sibilities and potential and with peoper making, con-sibilities and pervince's achieve professional gatters.

Mr. Caouette Fires Again.

Premier E. C. Manning of Alberta and Pre W. A. C. Bennett of British Columbia, who have long since proved their efficiency in dealing with their enemies, may now be suddenly realising that only divine providence can protect us from

Monsieur Real Gaoustie, Rouyn's biggest "find" since the first gold strike there, has been challes can mis goue states tower, as executable of the control of delivering himself of assorted opinions and ad-

In Quebec, though, Mr. Caouette makes ex-In Quebec, though, Mr. Cancutte makes ex-cellent sense. He says that many of those who worked for the Socreds in the nat-federal elec-tion worked for the Eiberals or the Union Nationals in the last provincial election. Evidently he fears that, forced to make a choice in the provin-cial areas, they might not remain in the ranks of the converted. This, of course, is the best news that has come out of Quebec since the blood-let-ting of that memorable eighteepin of June. If the Quebec Socreds are Socreds only on Federal elec-tion days, theret hope that they may yet be per-Quebec Socreds are Socreds only on Federal elec-tion days, there is hope that they may yet be per-manently weaned from the faith—and the rest of Canada may be spared a painful political dilera-pan, of seeing the country split on racial lines or embracing the Socred creed for unity's sake.

A Shortage Easy To End

Surgeons in Ottawa have been asked to postpone all but emergency operations. The reason—there is a shortage of blood for use in

This problem is not new, although we do not

Transmoster.

This problem is not new, although we do not make the control of the

an easy remedy for this problem of providing blood to keep people alive. The dead should be able to meet the need.

Not The First

No! The First

Raymond Auger, a young Greenwich Village,
(New York City) artist is eaking in a small
force, the work of the property of the control of the c

very irst trial, the machine painted a wonder-ial, full size, abstract mural. The invention of our machine was perhaps notable also for the speed and ease of the actual act of invention. The idea behind the ma-chine, and the actual teating of it, happened all at once, sort of, when we accidentally dropped s bucketful of paint into a fan

RARE, MEDIUM, WELL-DONE

By Gro H. CARVER, Sports Editor Well, they baven't done badly in giving baseball huts a good-sited shot in the arm.

They are meeting the Port Hope Ontarios in a soule-at anti-climactic league championship series, the Hopers ag the winner of the league's intermediate divison. first game was played Sunday.

The Kennoes in their successful run for the Lakeshore senior division roses, proved beyond a sha-down of a doubt the old baseball clicke, that a game not over until the last man is retired in the last

The most firmulate comeback of the season oc-curred Friday night when a well-bester Kenmor-cew refused to the down and play dead. Chande Cur-errand the here hate when he blasted a base-clearing trible that paved the way to four yours and a narrow 1-1 trimuph.

The Kenmors came up through the ranks and cutting their teeth in senior baseball company appear to be worthy successors to the fine teams that carried senior baseball banners before the aport faded because of lack of compe-tition in the district.

And grandstand crowds have proved that interest in baseball here was not dead, just dormant. Hundweds watched the league senior playoffs and many more will take in the Ontario championship series.

Newfie-Type Boats Race

Schooners To Stop Here

TORONTO (CP) — The skip- Lake; Renown II, St. Cetharers of four Newtoundland-type interactions of Port Dalhoule; Judicians in a 88-mile race around fire; IV, owned by Norman E. Green, St. Catharines.

The rate, will be held in concinction with the Canadian Na-const Exhibition which has often a prime of \$4.000 in newly-need a prime of \$6.000 in newly-need in a pirale of chest to the four Aug. 24.

who delivers your daily newspaper.

As the owner and operator of his news-paper route, this Junior Independent Merchant must solve problems and shoulder responsibilities, just like all

He buys his product, your newspaper, at wholesale and then retails it to his customers. He must make daily deliveries, do his own accounting, billing, and even struggle with a collection problem here and there.

He is discovering, through actual experience, the rewards for promptness, de-pendability, self-reliance and initiative.

We'd like for you to meet the Executive
Officer of a thriving business... the boy
who delivers your daily newspaper.

tail prices of the paper. His route means money for a savings account for college, new bicycle, a week in camp, mans

But he is earning even greater rewards. As he learns about sales and sale ship, he is equipping himself for the future. From boys who learned the prin-ciples of business as newspaperboys have come presidents, governors, mayors, industrialists and professional men...
those who determine the quality of our civilization in their generation.

It's his world to conquer ... and he's off to a good start.

If you have a son that you think might be interested in a newspaper route, why not-

A Feat With Big Implications

Russia's latest space achievement is spec-tecular. This time the authorities are taking full advantage of that fact. The Russian people are being given a chance to see thair men in or-bit, instead of having to be content with radio reports. Perhaps the Russians were impressed by the manner in which the U.S. publicised the by the manner in which the U.S. publicled the flights of Li-O.J. Ohm Glenn and Cred. Scott. Carpenter and the manner in which television coverage of their orbits of the world shid the attention of the North American continent. It is worth nothing, though, that the Russians did in worth nothing, though, that the Russians did in seense of preparation for the flight, nor of this schala blast-off. In this way, the Russians still preserved their ability to shroud any early failure in secreey. Instead of these shots, they presented something more impressive, latevision prictures of the Other Charles.

pictures of the commands as they guided their capsules around the globe.

It would be wrong, though, to consider this intest Russian space project as simed chiefly at enhancing prestige. It is in direct line of descent from earlier Russians space exploits, each one of which has been dermly founded on sartier-successes and sead one of which has been descined to pave the way for the next step. Even the use of television in flight demonstrates this rack—the provides additional proof of the great-form of the control of the provided menters, since tear tearant cannot were carried alot whet the U.S., with similar cannot carried alot whet the U.S., with similar cannot be used to be used

But putting the second cosmonaut into orbit But putting the second commonaut into critic a day after the first certainly had some other objective besides merely providing another check on ausceptibility to space schoners. Most observers see it as a preliminary to an effort to build a space platform. Much less rocket thrust would be required to launch a space ship from such a platform than would be necessary if the launching were from earth. The rocket would be a provided to the control of the co launching were from earth. The rocket would already have attained orbital speed before

there is, however, a second possible explanation. Considerable stress is placed by some experts on the communication between the two satellites. This would be necessary, it is point. statilities. This would be necessary, it is pointed out, in any pian to build a space platform. It is used as the season of the

The day is coming when the conscious and unconscious stirrings of the souls of the people throughout the world will become uniform and be manipulated by means of a gigantic entertainment machine. Yigman newspaper Cester-reich, commanding on the Tel-Star satellites.

M. Wallace McCulcheon, Canada's newest Senator and member, of the Federal Cabined, says "My political experience is very limited. Pive paragraphs later he says "My job is to do what the prime minister wants me to do." My, he learns fast.

My, he learns fast.

Science cannot distinguish between what is morally good and what is morally bad. If the cultil two under the hard the nuclear bomb—Lord Fisher of Larnest the nuclear bomb—Lord Fisher of Larnest the cultil two controls and the cultile two controls are controls and the cultile two contr vent the nuclear bomb.—Lord Fisher of Lam-

RARE, MEDIUM, WELL-DONE

By Gro P. CARVER, Sports Edite

"You may the rest, now you will see be best."
That's the way Lorne Urch, one of the Belleville
Fair's harness racing committee, summed up tonight's
starry meet at the Fair Grounds.

And looking over the thirty-two horse card publishe erday, I'm inclined to agree with the amiable Mi

All the ravorites of the summer meets are en-tered in the four two-heat races. And there are some newromers which, I am told, are going to give the best of the winted horses a bot run for the

end I am again sending out the scouts to seek out the trail of my "sliver-haired" betting lady who must have at least a half dozen crystal balls, one of which tells

As a reminder the first heat gets away sharp at 7.29. There is pari-mutuel betting and the daily deuble will bing home the bacon to backers of the witners in the first and accound heats.

A disgruntled softball fan said at one time during the summer that the calibre of the game in Believille was well below that of other places of comparable size, take any classification you like

On the other fronts the Joyces Real Estators and the Trenton Flyers are girding their bins and sharpening their sabres for the OASA playdowns in the current district league championship playdowns.

This could be a real chips-down series and could go either way. Jeyon, who finished well in front in the regular schodule, are not selling their fripely fee-men short. The Fiyers realise this is a brand new series and records don't mean a thing.

They proved it last night with a convincing win over the Real Estaters. They pounded Maracle, the Joyce ace, aplenty while Ratushniak showed no fear of the cham-pion's bats.

Both squads should be fit and ready for the up-coming playoffs. Joyces tangle with Kingston in the first round of the senior "B" playdowns, while Firers meet Oshawa in their intermediate "A" gut-logether. Both series get under way next Tuesday.

They won the championship over Kingston and two their players came home with honors and trophies the pitching and hitting divisions.

Larry Soden energed the top burier of the di-vision with seven wins and three tosses for a 200 perfectings and wan the Labsti trophy for the second year in a rew. Soden was the backbone of the Kennory hurling staff and theroughly deserved the honor.

Gary Goyer won the league batting championship h a mark of 338. Gary took the Dow award also the second straight year. He had 31 hits for 73 too at hat and was one of the league's most con-

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor

Here's another one of those "yer pays yer n

Two weeks age wrestling fandom tossed a coin, so to speak, when the unpopular Tolos Brothers were matched with another team of dislikes, the Kalmi-koff Brothers. Two weeks prior to that they added another couple to the "hate list," the Japanese due of Take Sakuro and the Great Kude. This team, the fans figured were as tough and nasty as the Whispeying

So they raised the Russian freres a notch or two in e popularity rating, and took sides with them in the battle ith the Teles couple.

The Tolos boys did not add to their popularity with fandom here last week when the subdued Ray Gordon and Vic Christie with their box of tricks.

This might cause the faithful to lean slightly toward Japanese pair on Friday night.

It should be a battle of the wits as well as the tricks. Sakure and Kude have some ideas of their swn that have worked out very well for them and the Greek boys could be in for trouble.

For the unified, the Japanese put on a celerial pre-best show. They pay homage to Buddha and have an attendant who appeals for silence during the religious rite. They were wooden anoths, and have said sprinked in the ring to purify the atmosphere. They go through an exercise ritual—and they're all ready to take of

Teen-Agers Flood Labor Market

As we predicted a month ago, the latest statistics on Canada's labor force show it to have been swotten by the addition of more ten-agers, frush out of school. This is the second month in succession that this has been the case.

Although there were 113,000 more Canada and the case of the case

as working at mid-July than in mid-June, there were 7,000 more Canadians listed as unem-When we learn that 173,000 students med the labor force, we are apt to interpret these results as remarkably good, and so, in a sense, they were. But we should not forget that Canada is a country where thousands of additional jobs come into being during the sumscottomas jobs come into being during the sum-months, to disappear with the coming of fall. Many of those 173,000 students now work-ing or looking for work will return to school not month—but it is also true that many of the 115,000 additional jobs will have been complete by the time the vacation season is over and reserts closes.

resorts clone.

Braders may wonder why, if 178,000 teern-agers started looking for work and only 118,000 more jobs were available, the number of unem-ployed increased by only 7,000. The increase in the number of jobless was kept down by the withdrawal of many married women from work-ing panks. We doubt whether there was any long-term significance to this decline. Many married women customarily quit their jobs in the summer—either in order to vacation with their families. to go to the cottage or because.

long-ferm aignificance to this decline. Many married women customarily quit their jobs in the summer—either in order to vacation with their families, to go to the cottage or because, with their children no longer under supervision at achool for the preservation of the control of the seasonal variations in the variability of plea and the nature of the nation's labor force, a much more accurate picture of the employment pleas and the nature of the comparisons with the same month a year ago, rather than with the previous month. Here we find cause for encouragement. There were 180,000 more Canadiana vortice, and 46,000 ferest Canadiana vortice, and 46,000 f

An Act of Bad Faith

The agreement rached between The Netherlands and Indonesia concerning the return of West New Culines is a model of common-sense and compromise—and laster military activity by Todonesia is a model of bad faith.

The Netherlands and Indonesia have agreed that the Dutch will hand over control of West New Culines to the Uff on Oct. I, that the UNIVERSE CONTROL OF THE STATE OF THE STA

control the country.

If this action makes the Dutch wonder whether the Infomesians have any intention of abiding by the agreement, particularly with respect to the 1969 pleblacite it would be understandable.

At first people were persuaded that they must better themselves by keeping up with the Joness. Now, as a result of high-pressure advertising they think they are the Joness, —Mr. P. M. Williams, in his presidential address to the Company Company. to the Co-op Congress.

Hard Work Is Rewarded

ent is being express-

selectating fest of Rousse's space actentials. The burling of two men around the earth at the assentime is impressive smooth finited. But the more impressive part of the speciale is that this means Roussi has second; to technicians and scientists to have two teams of them operating on the ground at the state time; it means, too, that they have smooth of the option of the product of the state time; it means, too, that they have smooth of the content, to the good to be produced to the state time; it means to the state time; it means to the state time; it means the state time; it means the state time; it means the state time; the state time; the state time; the state time; the state time is the state time; the state time is the state time in the state time; the state time is the state time is the state time; the state time is the state time; the state time is the state time; the state time is the state time.

Pinch Hitting

Couch Bid Forster and his merry ness of Kennes will be guarang for their first violety of the Lakeshez baseball blacker series here tenight when they heat the Fort Hope Ontaries in a 9.15 fixture.

After that brilliant comeback win over Kingston a k ago, the Kemmors must have suffered somewhat of a fowm in Port Hope last Sunday. The Onization no hovers by any means, reversed the tables on the Ken-res, secring four late runs to grab an 8-5 win.

That gave Port Hope a one-game lead in the best even series for the all-Lakeshore crown. The On-se have wen 13 of their last fourteen gasess.

Actually, Kenmors are the only "true" senior club in loop, but they had to dispose or Kingston before be-credited with the spater title. Port Hope has won Intermediate loop division to now the two clubs are thing it out for all the marbles.

Foretor will likely send Bill Latchford to the mound in an atlampt to grab tonight's all-important contest. The Ontarior' Ted Watts stopped the Kennoors on five hits in the series' openra, Bill Waltly, see of the pitching staff, will probably start tonight.

The locals still have speedster Rick Locke on the up from a leg injury, but hope to have him ready regular duty again abortly, possibly tonight.

Moe Hunter appears to have regained his batting and all in all manager Ken Soden is quite happy

Tonight's game has been scheduled for 9.15 in order give late shoppers and store clerks a chance to attend game. Another large crowd is expected for this one. There has been some question as to whether the diamond would be ready for a game tonight so soon after the fair-pulled out, but apparently everything is ship-shape.

The third game of the set is scheduled for Port Hope day afternoon

Den't forget tenight's "battle of the beaste." at Memorial Arena when the Greek team of John and Chris Tules tangles with Japan's Tare Sakure and the Great Ende.

In the semi-final Big Steve Stanlee will match holds against Jean Belanger, while Vic Christie and George Mc-Arthur will open the evening's entertainment at nine o'clock,

Belleville's smart young minor baseball teams hit the ORA playdown trail on three fronts tomerrow, one club seeing action at home and two others on the read.

The Peewees will open their series at home against Kingston. The game is scheduled for the CNRA Park at 1.30 p.m. and it is hoped that local baseball fandom will give the kids some vocal support.

Meanwhile, our Baniams trek to Kingston to meet the Limestoners in a 2.00 p.m. fixture.

Belleville's Midgets will clash with their Peterborough counterparts in the Liftlock City at 3.30. The game is at Riverside Park.

And tonight, at the CNRA Park at 6.15, Tru-deau Motors and Lightfoot Construction will clash head-on in the deciding game of their OASA Interme-diate "AA" series.

These clubs are evenly-matched and tonight's gas should bring out the best in both teams.

Winners of this series meet Oshawa in the next round.

wull-descrete hilds from now until September 4.

Reve flare, Georgie her.

"Ever kad a Newspaper Route?"

When a young man applies for a job he really wants—a job with "a future"—he is very apt to be asked, "Have you ever had a new-paper route!" His answer to that question may wall decide whether or not he'll get the job.

Why? Because more and more employers are realizing that former newpaperboys already have a solid business background.

They've bought newspapers at wholesale—sold them at retail—and operated a business of their own. They've already learned that the only way to conduct a successful business is to give service... to keep present customers satisfied... and to get new customers.

Many of today's executives were yesterday's newspaperboys. They know that a newspaper route is the one part-time job open to a young Canadian that teaches initiative, the value of money and the importance of getting along with people.

Yes sir . . . there's no doubt about. For jobs with "a future", employers prefer former newspaperboys.

If you have a son that you think might be interested in a newspaper routs, why not write or phone us.

Not So Alarmina

One-third of the landlords who offered ac-University of Toronto have refused to sign a cer-University of Turnito may France to again a trifficate pledging them not to practice discrimina-tion because of race, color, creed or national or-igin in renting their accommodation.

Understandably enough, university officials are dismayed., Dr. Daniel G. Hill, director of the Ontario human rights commission, says the cases will be "investigated immediately and personal-

At first plance, the situation does look black At first glance, the situation does look black. Commopilisation is an essential ingredient of any university worthy of the name. If these insudnovs has been in the custom of renting accommodated in ourselvest students and staff in the past, so little of this commopilism outlook appears to have rubbed off on them that university officials might be forgiven for suspecting the order of the commopilism outlook. The commopilism is the commopilism of t

Second thoughts, though, reveal some rosier hues to the picture. For one thing, two-thirds of the landlords have apparently signed such certificates. To find two out of three free from racial prejudice is encouraging. The percentage, it seems to us, is higher than is likely to be found Just sout anybody with any kind of governmental, parlia-mentary, diplomatic or journal-sistic connections who is not suf-fering a communicable disease or on the "Most Wanted" RCMP list can sitted a cocktall in the general population. As for Dr. Hill, it will do him no harm to have forcibly brought to his party a day.
On big days, he can even play
Anoble-header. on log days, ac can even pass, of couble-header can even pass, and couble-header can even pass, but big buts, with reception lines and even the odd instrumental trio sawing away on Strauss Setween the barz. This — with the warm nummer nights ideal for garden parties under Japanere lanterns exhalt all and early whether are what is known as "the sea-hoat." attention what most of the rest of us have long known — that the Ontario legislation against racial prejudice is as often honored in the breach as in the observance.

Potential Bonus

About 200 leading businessmen have been invited to Ottawa, at their own expense, to give invited to Ottawa, at their own expense, to give their ideas on what could be done to step up domestic and export sales. The meeting, to be held September 7th and to be open to the press, is being convened by the Department of Trade

It may be hoped that the meeting will not neglect the subject of import purchases, a major influence on the level of business activity within influence on the level of ousness activity within the country. Canadians, on the basis of both per capita and total purchases, are still the world's largest buyers of foreign-made manufactured goods. We spend \$236 per person per year on such goods, compared to \$32 for Americans and \$50 for Britons

Ontario's Premier John Robarts recently said Ontario's Fremier John Robarts recently said that if people in his province would spend on Canadian-made goods just \$100 of the average \$236 they now spend on foreign products, the business that stayed at home could directly create 60,000 new jobs. On a national basis, the increase could amount to 180,000 new jobs.

The trade department puts much emphasis on the benefits that will accrue from increased export sales. And certainly there is gain in every dollar of foreign sales. But particularly at the present time there is an important potential bonus to the economy in buying diverted from foreign to domestic producers

Royal Mishap

Britain's sallor prince may soon be relegated to the sea cadets, for further training, we fear. Several years ago, when Prince Philip and the Queen were visiting Canada in the royal yacht, Britannia, he undertook to bring the ship to dock, once. There was a mild crunch, and about twenty feet of paint from Britannia was left in Canada as a souvenir of the visit. Members of the ship's crew repaired the damage to the deli-cate egg shell finish after dark, and little was said of the incident.

But Philip's latest, (and perhaps only other), But Philip's latest, (and perhaps only other), slip was a bit more difficult to conceal. The Prince was sailing "Coweslip." (a "flying fif-teen" class yacht, when she capsized in a close trace near the Isle of Wight. The incident wasn't rus, but because it happened to the prince,

is was news.

Scraping a bit of paint from a yacht is an incident easily covered by a few swipes from a discreet seaman's paint brustl, but this time the prince's boat had to be towed, under the eyes of the curious, back to the boatyard. This sort of incident might be hard on traditions about Britannia ruling the waves.

The Metropolitan Toronto and Region Conservation Authority will be asked to seek a grant of \$80,000 to complete the authority's Pioneer Village, opened two years ago. Total coat of the village is expected to be \$160,000 and 300,000 people have already visited it. Everything auth-entically old-fashioned except the coat and the

The department credits new Canadians with drawing attention back to the sport in this neck of the woods, ming that in many parts of North America the rabbit onsidered number one in importance to game hunters.

a reather, for or halv.

"Arrival is took the Yee Canadians' to show us just flow important the rabbit is. Many of these people now reliding is and around metropolitat Toronto took to the reaching in the religious properties of the religious control of the photological form of the religious control of the religious in abundance, took advantage of a ready a Arrivat. More of their friends plant them and serves of good hundling brought hunters into woorded areas in the Yeed district and eats our agricultural lands.

"Actually this was—

"Actually this was a good thing, for the rabbit at times becomes a source of concern to foresters and ag-ricultural people. Young pine and spruce plantations as well as orchards are particularly vulnerable to rab-bit damage.

bit damer.

"One plantation owner in the Tweed district sent out special invitations to rabbit hunters as an aid in controlling the animals. A record of the harvest was kept belief to the controlling the animals. A record of the harvest was kept belief to the comparing the men in each party took 28, 800 men parties comprising six men in each party took 28, 800 men from separate hunts took a total of 110 rabbits. This adds up to 323 rabbits on eight secret.

"Now this may mean a lot of rabbit but all the animals were utilized (cleaned and stored for ready um) by people who realize how acceptable rabbits are as a food source.

"The Department of Lands and Forests have received many request from sportness (individually and in groups) who are interested in rabbit hosting, where they can be who are interested in rabbit hosting, where they can be well as the state of the state of the state of the state where been pleased to direct hunters line our wood-ed areas in the crown where the somewise rabbit on the found. Also we advise hunters out after Useir's and col-tentials to seet the permission of hostwares who are usually withing to stillow hunting provided they know who be foreign the institute.

"All three types of rabbile are now classified as game and common game will tell the sportnam to wait until the fall when the animals are tender and fat before going hamilar. The season opera on September strategies are sufficiently as the strategies of the sat-stractic to survive the rigors of twister makes the ani-mals length, Ican and a little on the 'barky' aide.

"Of course, landowners may destroy the animals at time if they are doing damage, but let's take them at me when there is no waste.

"The wise use of our natural resonion in a nut shell."

DDS AND ENDS

Hockey talk in this form is conspicuous by its ab-sisted. — Woods-Horjek Juveniles meet Onhaws in action of the Onland Apploars. — The Design Model of the Control of the Control Design Control of the Control of the Control this seases than any major learner since 1919. Hold on to Your Seat (Belt)s

Recent figures from a survey of traffe ac-iclent fatallities in the United States support of the statement that it motor vehicle drivers and bysampers were to use east bells there would be do up to 80 per cent fewer deaths. It was also est-mated that there would be up to 66 per cent in force thinties. fewer injuries.

ar injuries.

In face of rising traffic injuries and deaths in microkulated; you bludder to not a positive nature must be taken.

At the dance, I fried with the dance, I fried with the dance of the positive nature must be taken.

In face of rising traffo injuries and deaths
or, Ontario highways it is resulty apparent that
action of a positive nature must be taken.
Prevention of accidents is all very well, lite
the outlawing of war. But, to be practical in
viewing the situation, we must accept the hard
cold fact that accidents are not going to suddenly
stop, or disminish in numbers or accept the hard.
When a suitable are supposed to the supposed to the suitable are insumma steak, there will quit be more and spore somathem of accept the fact that accidents are the number of
accept the fact that accidents are subpromptions and promption of the company of the control of the company of the company

Seab bels, as the foregoing figures indicate, are a positive answer towards achieving such a goal. Auto manufacturers have been vaciliating in their acceptance of such an accessory as standard equipment although, inonically, they have been proving to the public for years via various demonstrations that each belts are excellent actions.

ty device.

1. The Ontario government could take a positive approach to the situation by making seatbelis mandatory equipment in all vehicles prior
to their being issued with 1663 licence markers.

This is as destrable to ensure the sately of a
driver's passengers, and himself, as is public liability and property damage insurance. In this
case, hopever, most cars can be equipped with
proper seat belts for the same amount as it
would cost to pay the unsatisfied judgments fund
premium for one year (twenty dollars).

More lives can be saved in this fashion than
by any other means short of banning mofor veh-

by any other means short of banning motor veh-icle traffic.

Robarts Is Right

Premier Robarts says that he is "completely opposed" to the imposition of tolls on major ac-cess highways in this province.

There was a time, not so long ago, when it peared as if the toll highway advocates were ing to win their point.

going to win their point.

These advocates had many good arguments to support their contention that the imposition of talls would be beneficial. One of their most letting pleas was that only in this manner could, sufficient money be raised to finance the large-scale road-building program necessary to keep pase with the growth in automobile traffic. However, since that time impressive progress has been made in improving the province's highway system, without resort to tolis.

Another summent used by the supportune of the properties of the properti

system, without resort to tolis.

Another argument used by the supporters of toll highways has been that only in this way can those who use the highways most be made to pay a proportionate share of their cost. People are apt to forget, though, that others besides motor-traffic is hirafied. One of the major benefits accruing to such Sastem Christoff cities as Belleville and Kingston, for example, has been the easing of the downtown traffic problem now that through traffic bypasses them. One of the sranile of the imposition of tollos on highways likes and the traffic to alternate routes, where no totle existed. This would be unfortunate. If tolls en

some of the traffic to alternate routes, where no totle existed. This would be unfortunate. It is in the best interests of all that these superhalpways carry as much farfile as they comfortably can, thereby lessenting the need for additional work on substituty routes.

and work on substituty routes.

In the substitution of t

Truth is tough. It will not break, like a bubble, at a touch; you may kick it about all day like a football, and it will be round and, full at evening.—Oliver Wendell Holmes.

Nothing went wrong with our campaign at all—it's just that voters did not respond in the way we expected.—Mr. Peter Goldman, de-feated Conservative candidate in 'Orpington,

SPEAKING of MANNERS

Open Letter!

TO MOTHERS OF LITTLE GALS FROM 5 to HIGH SCHOOL AGE ...

How does your daughter grow? With naturally curly hair? If so, we'll cut her hair in a style that will be trim and tantalizing. If not, we'll cut her hair to a perky length and give her a baby soft permanent wave.

No more putting it up every night or after every rain storm. This plan is not only helpful to you, but good for your child. Most little girls are coquettes at heart. We'll wager a child who looks as pretty as she can, will be as smart as she can and happier — in school.

SPECIAL, AUGUST 15th to AUGUST 31st CREAM OIL COLD WAVE

Pinch Hitting

Sian "The Han" Husial, who rates as one of the all-time greats in the baseball world, is having a tre-mendous year for the St. Louis Cardinats, at an age when mest athletes are content to relax in from of a

Musial is 41 years of age. This is his 21st year with the Cards and what a fabulous career he has had. Or abould we sayis having? He has won seven batting titles and is bidding for another this term.

Stan owns a lifetime battling average of 333 and the way he is guing this year it may be a little higher than that entering the 1842 secon. There will be fall of his retirement at the end of the schedule. There has been every year since 1853 when his average dip-ped below 346.

But don't bet money that the Cardinal great won't be in there clouting come next spring. Before he retires Stan will practically have rowritten the hitters' record

Mustal collects records like a millionaire collects oney. He sets a new one just about every time he kes to the field. RETA, hits, total bases, home runs, ay mame it and "The Man" will be listed at or near a top of the list in the given department.

Musial wears his fame with great humility yet there none, be he teafamate or opposing player, who doubts

Umpires, a breed by themselves, are also pro-musial and it's easy to understand them when one discovers that Musial has never been ejected from a ball same during his entire major league career.

Jocko Conlan, veteran umpire, told the Cardinal sod Pittaburgh Pirate players at a testimonial luncheon in Musila's honor recently, "I just with a little of Musila would rub off on each one of you guys. Our (umpires') job would be a whole jot easier."

"But there are two ways of doing things. I've found that if you make your complaint quietly—but let them know you're baitling for everything you can get—you'll have no irouble. Just don't show them up."

"I suppose I argued with good old George Barr more than any other umpire about balls and strikes," says Musial. "I liked George, but he and I never did see eys to eye on strikes. One day he called me out on a high pitch by Preacher Roe.

"For a minute I was wild. I exploded, saying 'B; golly, Georre, that ball was a foot conside, It wanniere diese.' I gress the fact that I was so upses surprised George. He immed back a foot, pulled of his mask and said excitedly. 'Now Stanley, I though it was a strike.'

"His reaction was so funny that I started to laugh and I just walked away."

Stanley Truste Musial earned the respect of all with such action as is related by Check Conners, the TV (Riffer-man) star who once played per football for the New Giants and baseball for the Dodgers and Cuba. A wealth star of the Conner was a struc-ture of the Conner was a strug-gling first baseman, trying to hang on in the major leagues.

aguet.
"I was in a perennial alump," Connors says, "and I should have known it, but I always felt that there was some little thing wrong with my swing. If I could get that straightened out, I might make it.

Then he took me over to the side and talked hitting to me for 15 minutes," says Connors. "Me, a bum, I with I could tell you that his advise holped, but if didn't. I just wann't cut out to be a major leggers—and I will never torget his kindness. When he finished he slapped me on the beck and told me to keep trying."

Stan Musici is a great ball player and a great

Teachers Give Warning

The Ontario Secondary School Teachers Pederation has protested against what it calls the arbitrary use of restrictions by universities on

Lacking the test of the Faderation's fate-ment, we are jar less to understand precisely what restrictions are considered arbitrary by the Federation. The secondary school teachers ex-ocutives ago these restrictions are being imposed to meet a crisis caused by lack of accombondation and staff. The right of the universities to turn admitted. What amony the Federation executive is "the use of artificial or arbitrary devices." But the devices to restrict entraints add to have been used by the universities are the raising of exam-ination percentages requirements and imposing special date restrictions on applications. The rais-appropriate way in which to allot the available vacancies, indeed the only fair method. As for date restrictions on application, while these might be used in an arbitrary manner it is un-derstandable that, with more applicant than Lacking the text of the Federation's statederstandable that, with more applicants than there are vacancies, the universities would be desirous of letting applicants know their fate as early as possible, so that they can attempt to make alternative arrangements.

make alternative arrangements.
All this, though is really beside the main problem, which is the imperative need for prompt action to provide adequate university accommodation in the years immediately shead. The Ontario Secondary-School Teacher's Pederation executive says that by 1970, Ontario university enrollment will exceed 100,000 the same percentage of high achoel students as at present is accommodation of the same percentage of high achoel students as at present is to continue education at university. This is approximately three times the present number of university students in Ontario. Rather obviouson university students in Ontario. Ratingrophysics, a vigorous program of expansion of facilities is required and this expansion must be undertaken promptly, for it will require considerable time to carry out such a program, especially in recruiting qualified faculties.

Ontario secondary school teachers are ful-filling their responsibilities to their students in thus vigorously calling public attention to this

Not Necessarily So

R. J. Sutherland of Canada's Defence Re-

R. J. Sutherland of Canada's Defence Re-search Board says that a "resonably strong" North American anti-bomber defence system must be maintained, possibly for decades. Possibly — but not probably. Butherland's argument is based on the con-tention that the bomber is more accurate, fier-tenion and the second of the con-tenion of the second of the second of the con-tenion of the second of the se

His reasoning is sound — as far as it goes, But he overlooks the "Polaris" and the U.S. fleet

bomber force, and no missiles, can destroy mobile saunching platforms, hidden be-

If there are enough of these floating under-water launching pads, no bomber attack could hope to prove so successful that the country makit could escape retaliation.

It cannot be stated too often that there is

It cannot be stated too often that there is no defence system in today's world which can protect a country from devastation. The most it can do is to give the altacked country time to launch a retaliatory blow.

If a country can make absolutely certain

that its capacity to retaliate cannot be eliminated, then any further defence measures would appear to be unjustified. The armor which warappear to be unjustment. The armor which war-fore some wore to protect them from arrows and broadswords is still the best protection against these weapons, but has been discarded because it will not stop bullets. Similarly, there will be no need to stop bombers blasting missile bases and bomber alrifelds on this continent if the U.S. once acquires an adequate retaliatory force based on nuclear submarines.

Things cannot always go your way. Learn to accept in silence the minor aggravations, cultivate the gift of tacturnity and consume your own smoke with an extra draught of hard work, so that those about you may not be annoyed with the dust and soot of your complaints. Sir William Osler.

Addiction to milk makes a boy mother-drawn . . . Once he has a taste for milk he will never develop properly as an individual—Percy Cerutty, Australian track coach, urging a ban on

A great interpreter of life ought not himself to need interpretation.—Joseph Malins.

How other major car manufacturers help us sell more Ramblers

Soon after Rambler introduced its first sensibly-sized car our competitors saw the trend we had started and went into compact car production. Despite the increased competition, they actually gave us a boost by making you more compact conscious.

Remarkable proof of this has been our success. In 1961, for instance, our sales increased by 50% over the previous year. And almost 100 new dealers joined us during for our success. the same period. This year sales are up 60% over last year.

With years of experience behind us, we are able to produce a vastly superior compact. For example: we pioneered Single-Unit construction; developed Deep-Dip rustproofing, specially for Canadian conditions and introduced the CeramicArmoured muffler, guaranteed for as long as you own the car. This year we added such new features as self-adjusting Double-Safety brakes; and a battery and coolant, both with a two year guarantee.

Rambler stands alone as the one automotive manufacturer really interested in providing what we call "maximum usefulness to the user". This, we feel, is the main reason

To prove this to yourself, take a look at the so-called compacts first. Then visit your Rambler dealer. You'll have no doubt that Rambler is Canada's best all 'round car value.

Pinch Hitting

Ace Motors, top team in the Kingston Sentor Soft-ball League this season, will provide the action against Joyce Real Estate at the Fairgrounds tonight in the opening game of the OASA Seator "B" playdowns.

This should be a battle of the glants as both clubs won their loop pennants and did so with almost identical records. The Senior "B" trail is rever an easy one and you can bet that both these teams will be going all out to get a jump on the other tonight.

Are Motors has none other than big Charlie "Goose" Pester playing first base for them. Pester, who plays everything well from tiddlewinks to wrestling, including baseall, rupty, Baaketball, and softball, is a singger of the first water.

Well known to such Joyce players as Claude Carr, Elliott, Ted Batchelor, and Chuck Kingston, the big will no doubt be given special attention

Other names in the line-up include Besity, Nea-amith, Thuribuy, Tinkes, Irwin, Seabrooke, Sears, Mil-ter, Scott and Jackson, Neamith is said to be a ter-rific shortstop while Bob Jackson is the pitching ace, backed up by Fete Scott. The club is reputed to be a

The Joyce brass, manager Bill Shaw and coache-plack Elliott Sr., and Harry Morgan, will likely field their strognest lineup tonlight. Pat Maracle is the expecter starter and if the aging one is anywhere near his peak, be will make it tough for the visitors. Doug Ellis will

The rest of the lineup will probably have Claude Carr'catching, Chuck Kingston at first; Ratph Plane at second, Jackie Elitoti at abort, Dave Jones or Ron Davis at third and Ted Batchelor, Bert Faulkner and either Siu Mairhead or "Red" Kellar in the outfield.

This is a two-of-three series, as are all OASA affairs no one can afford to make mistakes. The second gam lated for Kingston on Saturday.

Tenight's game gets under way at eight o'clock

The Bay of Quinte Football Association, which has far too few boosters as it is, will be losing one of its veteran players and executives this weekend

Norm Carter, a soccer veteran who has played the ne for close to 38 years, will be leaving this area to spt the tob of recreation director at Lucan. Carter is the secretary of the B. of Q. F. A. this year is one of the star forwards on the leagu's strong Tren-

nbers squad

His loss will not only be felt by the soccer people. Carter is an executive and ardent worker in the Belleville Minor Sports Association.

Lois of success in your latest venture Norm

The fascinating antics of the marvellous midgets will be on display for the first time this season at the Belleville Memorial Areas Friday night. Four of the world's top minute-matmen will dip into their bag of whiri-wind manoeuvres that have made them immensely popular wherever they travel.

wer they travel.

Little Beaver, died by many as the number one small man, will have as his partner the dapper English speed demon, florer Littlebrook, when they take on the o'debtainton of parcy Copid. In ministure Gerena Gerrar, and Sky Low Low the powerhouse of the bight-flying hait-joins.

The semi-final on this card will pit speed against size. Sam Steamboat, 220-pound Hawaiian heavyweight champion, will be going all out to wear down his 300-pound opponent, George McCarther.

P.O. BOX 75 — BELLEVILLE AMPLE PARKING FACILITIES

For as little as Twenty cents a day

You can enjoy the comfort and convenience of Modern Esso oil heat

Less than 20 cents a day can bring the magic of modern Esso oil heat into your home. Clean, dependable and completely automatic. Esso oil heat will put an end to all your home heating problems. You simply set a dial and Esso oil heat will do the rest automatically, whether you're at home or away for a weekend or a holiday.

If your home is presently centrally heated, perhaps a storage tank and conversion burner is all you need. It may cost you as little as three hundred dollars. You can pay over a period of up to 5 years-less than 20 cents a day!

Winter is getting closer but it's not too late to call your local Imperial Esso

STATE COMMENT OF THE PARTY OF T

Wanted: Friendly Guerrillas

Wanted: Friendly Guerrillas

The Associated Pore species that hostilis
between American guerrills trope and their oblies, the Scott Vetenames, in humpering the
war seganat the Viet Crog. American units
are being relied back from some advanced positions in fear that the Vietnames would shadon
lean to the Yife Crog in case of an attack; and
rocks are being fluxers at Americans from inside
Vetenames army camps.

The American troops in Viet Nam are some
of the Crog in Case of the Vietnames would
relied be well has the mid-most lightly trained soldiers
guerrilla warfare, the meak attack of the jungle, in
contrast to the hormal American guttern.
While the regular U.S. army trucks are now
oculpped with automatic transmissions, the
guerrillas are taught to ride donkeys.
All this training has a purpose. The men

guerrillas are saught to ride donkeys.

All this training has a purpose. The men are trained to land behind, or close to, enemy linkes, and organize a grass roots army of the local population. They are trained to pick up the nearest weapon, whether it be a rock or a gun, and make use of it when the time comes. Apparently there was just one course lett out of their training curriculum, how to make

friends.

The Americans claim the problems is racial: that the Indo-Chines just do not like the white men, even if the white men are helping them fight a war. If that were the case, the United States and States are all the states of the Chines and Regress under arm, allians, Peurlo Ricens and Regress under arm, allians, the Chinese and Regress that the Chinese arm, all the states are the states of the Chinese and the problems. The states are the states

another problem.

Any man as highly trained as those in the American forces, may be expected to be a bit cocky and self assured when he is out on his job. This is just the attitude among Americans that has already lost them friends in some countries. The Victannese know what they are doing, too, and their knowledge came a lot harder than the Americans.

colong, too, and their knowledge came a lot harder than the Americans.

The communist forces are alowly winning the large scale buttle for Indo-China, because they can almost invariably make allies of the populace, at least while the fight is on. The Americans, of course, might find that part of their trouble is being associated with the wrong group in the countries they fight for. But it might just sum out that a bit of humility is made a rocket launcher of bamboo and vines.

Steady at the Helm

U.S. Defence Secretary McNamara says he sees no reason why the U.S. should after its carefully charted space program, because of the Russian success in putting two cosmonauts into simultaneous orbits.

simultaneous orbita.

Some may see this stand as an eche of the view of former president Dwight Essenhower, who in an interview in Britain has desired with the standard of the U.S. in their space race.

Actually, though, the positions of Essenhower and McNamara may have little similarity. Essenhower, it would appear, is subsbornly refusing to recognize facts. But McNamara may worram on Essenhower, it are unstabled to the control of the c not be casing his return to alter the 0.5. space program on the questionable contention that Russia has no lead. Rather he may feel, that, despite a Russian lead, and with a certain evi-dent logic, no probable good and much possible harm might result from a hectic revision of plans

narri migne result rom a necue revision or pians at this stage:

Successful Living

(A Canadian Social Worker Helps with Human Problems) Married Friend Considers Separation

decided to move to another district. DORBS CLARK.

I haven't seen him since but hear that he is considering separation. I wouldn't want this to happen. How can; permuse him to consider his family? I'm sure if he gave some move thought to them he would realize that without him his family would be like a ship without a rudder.

DEAR WORRIED-Your best move was to get ou of his life. Stay out of it. If he tries to contact you, make it clear that you do not wish to see him, or talk to him.

Once he realizes the strength of your resolve (if he docan't aiready), he may see that a future without hit family is protly empty. You can do more to change his mind by remaining silent than by anything you may say.

DEAR DORIS—Does the wife of a best man be with him at all during the ceremony or reception.

I know the punch will be "spiked" so would it be rade to not drink the toast? Would it be better it the glass will be the spike the spike the spike and put down again?—JUST WONDERING.

DEAR JUST—Let him be. His big job on the Big Day is to cerry off the afteir without a hitch. Wifer—who has had her Day—helps most when abe studied by on the slockines and cheers. Of course, the bride shows thoughtfulness when she provides company for her.

Pinch Hitting

SEBALL NIGHT

The Kenmors will be seeking a 3-1 stranglehold on the best-of-seven Lakeshore baseball championship series here tenight when they play host to the Fort Hope Ontarios in an 8.15 fixture.

Sid Forster's boys took an 8-5 beating in the opening ne of the set but have bounced back with a pair of vincing wins to lead the set two games to one.

A win this evening will put the locals in the driv-per's seat. Foreier will, in all likelihood, send spliching ace Larry Seden to the hill. Larry was on the Joring end in that first encounter and will be giving his best to even that score tenight.

to even mas soors testight.

Every time, we mention Moe Hunter's name here it seems to link him but we hope such it not the case (onlight, Moe alammed two home; runs in Sunday's garné at Port Hope and added a double. The Kennors have hit only we home runs in league and playoff games thit year and Hunterdas four of them. Barry Duguid owns the other.

With a four-man pitching staff, consisting of Soden, Bill Latchford, Stan "Lefty" Reld and Gord Vaughn, the Kenmors figure to be plenty tough from here on in.

As the district's only major baseball attraction the Kemmors deserve good support at the gate. Let's see that, they get it, starting tonight.

C. N. E. PAINTINGS

Last year the long-awaited Sports Hall of Fame was med. We had a chance to check through B shortly after opening and found it a very rewarding experience.

Included among the many pictures was one of the World Champion Belleville McFarlands. And what was so pleasing about the picture was the lack of a caption beneath it telling once again of how much the title out this city.

A number of attractions have been added to the Hall of Fame this season.

One is a dramatic series of paintings, done by Can-da's leading contemporary artists, featuring the achievements of our country's greatest athletes and

The series covers more than half a century on the inadian sports scene and features individuals and events hich make up Canada's heritage in sports.

A picture of certain interest to Belleville and district persons is one painted by Fred Oakley of Bobby Hull, Chicago Black Hawk star, and Berule "Boom-Boom" Geoffrion of Montreal Canadiens.

The painting depicts the first time that two 80-goal rers opposed each other, on March 19, 1962. Geografored his 50 in the 1960-61 season and Hull bagged his for eago last year.

Other shots include Lionel Conscher, Barbara Ann Scott, Lester Patrick, Anno Heggivell, Rocket Bichard, Percy Williams, Jimmy McLarain, "The Blue-ness," Edmoton Eskimos, Toronio Maple Leafs and the Calgary Stampede 1962.

You might take a look if you are visiting the Ex

Taking Chances With All Of Us

Monday, a small island of floating weeds appeared in the lower stretch of the Moira Sirver, to find the more stretch of the Moira Sirver, to find the more stretch of the Moira Sirver, to the Belleville. Decopy surrounded it, and a search as private duck by John and the Sirver stretch and the Moira Sirver should be surrounded by good natured positing of the perpendicular of the perpendicular stretch and the John of the perpendicular stretch and the John of the perpendicular stretch and the John of the John of the people who people with the John of the J

and it provides amusement to the people who pease. The mean compiler. There was a justly famed group of students in New Yark City, for example, who dressed as city workness, barriesded a block of busy downtown street, and ripped up the parenant. It was nearly a week after the students left before people realized that it was not part of the maintranance and the partially paralyzed.

"The New York hose provided humer to people across the continent, but there were people in New York who were less than pleased. And games of this sort can play haveo with the taxnet, if they become popular. But these the tax to the people in the p

No Time For A Gamble
At Saturday's Moscow reception for Russia's
ace twins," Premier Khrushchev sald that At Saturday's filoscow reception for Russia's represe twins. Premier, Entrushoher said that Russia would sign a separate treaty with East Germany if there were no agreement with the Western powers on Berlin and the German question. This is an old story, but one can never be certain that the barking dog will not suddenly cosen his nected and kale as Ing. 2 treaty with beart of the control of th

tions by West Berliners against the Communisterected wall in their city.

These demonstrations started Friday and on Monday the West Berlin crowd threw stones at everybody within sight, at Americans and even at West Berlin policemen, as well as at Russians and East Berlin horder guards. At U. 8. Instateme, West Berlin police pushed the demonstrations 300 yaxes back from the border. Rather ordonaty, West Berlin authorities, while springalasties—with the objectives of the indication of the temper of West Berliners, no-body can guarantee that any Russian treaty with East Germany might not touch off riching which the West Berlin authorities would be unable to control. This might easily provide the

which the West Berlin sutherities would be un-able to control. This might easily provide the spark leading to more dangerous clashes, be-tween members of the spark leading to the term of the western powers and of Russia. Few popple believe that Khrushchev wants to start a major war over Berlin, but it is not adways possible to predict the consequences of actions taken in complex and tense statutous, healthy maximum apporter magazine is an un-bestiley maximum apporter magazine is an un-bestiley maximum.

Dangerous Trophy

Dangerous Trophy
France has not completely abandoned its interests in Algeria. The Pasteur Serum Institute, with its inboratory of 'animats inseutated with typhus plaque is still in Prench hands, and guarded by French scientists predict the plaque loosed would plunge Algiers into a major disaster. The laboratory, and laboratory personnel, have been the target of Moslem attacks since he night of alg. 14-15, when a driver from the Lostitute was kidnapped and killed. One wonders II it might not be people interest in the control of the control

Take the whole range of imaginative literature, and we are all wholesale borrowers. In every matter that relates to invention, to use, or beauty or form, we are borrowars. — Wandel Phillips

Successful Living

Son Questions Mother's Affair

DEAR ROB—ris should you ignore it. Murder will out, and if these two are feeling support, it's themselves. It's a post it find of low white like the loved order reputation. Besides, government halp will be withhald when the fact become known.

These are oblive vary. We shay were to marry and merge two households, order would lessen. Mother might work part time. A little more course and these two could find a hoppy residing.

DEAR DORES—I have been corresponding with a boy I have never met, but who got in touch with me through a club contact. In one of his letters he said he had a crush on me and from then on has signed his letters "Love."

He lives only 40 miles away, but has never come to see, although he said he would. Explains that he works evenis and that he hasn't a car. At Christmas he sent me a

Doris, I'm so mixed up! Should I continue writing to him? If he is really interested in me, wouldn't he make some effort to come and see me? He says my letters mean a great deal to him.

DEAR WONDERING—He's pig in a poke." There are buss, trains, evenings off. He could get to you. Right now you know little about him. He may be 30, handlespeed, married. Or may have more than on committe correspondent. His unrealistic use of the work "love" makes me wonder.

Invite him to come and see you and suspend correspondent to the come and see you and suspend correspondent.

TO DAY DREAMER—Write again, enclosing you name and address and a stamped envelope and I will send you to learn to dance in your own living room.

(Doris Clark, Master of Social Work, is a graduate of McGill, Toronto and McMaster unversities, and has had broad experience in social work. If you would like help with your problems, write to her in care of this newspare

TV Antenna

WITH EVERY NEW TELEVISION SET PURCHASED

This is what we do: Check lead-in - clean rust and corrosion from antenna contacts check antenna guy wires - check guy wire anchors. This offer is for a limited time only-

Poor Reception Is Often The Result of a Neglected Antenna

Checked and cracked antenna lead-ins and corrosion of antenna contacts gradually weaken television reception. For this reason, Yu caratis should be inspected every two years. Take advantage of this offer ... A branch saw television and an overhead untenna will give you

THE BEST POSSIBLE TV RECEPTION

OUTSTANDING TV VALUE!

Youngsters outgrow'em before they outwear'em

Boys and girls generally outgrow a sion size in 4 months. Trouble is, they outwear their shoes even sooner. That is why Bats developed rugged new Brave, I cather-lined Gouvear with a moulded, illicible, water-light soic that is so tought—so strongly bonded to the upper sion—state they sion.—state they so most soil so since the strong when your youngsier grows not of them. Want proof? If for any reason the soles of Bota Bravew were out or pull loose, within the guarantee period of # months, simply return them. The strong was supplyed to the size Big to 12, \$5.99 for sizes 12½ to 6, all with multiple fittings.

to serve you in the Quinte District, Belleville, Trenton , Picton, Madoc Campbellford, Frankford and Batawa.

Bobby Fischer, of the U.S.A., is up in arms with results of the candidater tournament played re-ily to select a challenger for the world chess crown.

His charges against the Russian players appeared in lonal sports articles on these pages last week.

cher, however, is not alone in his "up-in-arms

So is this office's chess expert.

The big difference is that our man is disgust in Fischer, not the Russians, as you might gath in the following written by our local expert?

Thank you, kind sir.

Little Beaver, king of the wrestling midgets team up with speady Roger Littlebrook to he Friday's wrestling eard at Memorial Arena a "bad guys" fixy Low Low and Furry Capid.

Entertainment, fun and Toods of action are always aranteed when the midgets take to the mat. These pint-ted packages of dynamite can do everything the big llows can do—and then some.

Friday's ection will come in the main bout, a three falls affair, so the little ones will have plent ortunity to display all of their tricks. The -semi-final bost should also be good, pittle the popular Sam Bésambeat, from Hawall, against is accree McCarther, the latter a \$85-pound roughle.

Jean Baillargeon, one of a family of wrestling broth-from Quebec, tackles Bob Leipler in the opener. Bail-geon has muscles, muscles and more muscles. He ples them in a manner that seems to upset his opponent try time. This one promises to be fast and scientific.

The big show gets under way at nine o'clock

Still In Its Infancy

Automation, says Dareden Chambliss in an Associated Press article, is ten years old. He hastens to add that this hirthday marks the anniversary of the use of the word, not of the process which its describes. Automation was not born—like Topsy it "just growed" and it is difficult to say just when it acquired the status which entities it to be described as automation rather than merely the use of labor-saving

which entities it to be described as automation rather than merely the use of labor-saving machinery.

But it it is virtually impossible to phy-point the process which marked the beginning of automation, there is no question but that the co-traction of the process which marked the beginning of automation, there is no question to the the constant of the process which marked the beginning of the constant of the process of the constant of the co

in the number of man-hours of labor required to produce a given quantity.

Tak, of course, was the reason why the dawn of the age of automation gave rise to grave misgivings on the part of labor, and on the part, too, of more intelligent and far-seeing the part, too, of more intelligent and far-seeing the part, too, of more intelligent and far-seeing aware that missing the product of the pro-aware that employees are also potential cu-

Mr. Chambliss says that automation does

tomers.

Mr. Chamblies says that automation does not appear to have thrown many people out not appear to have thrown many people out of work—that normal resignations, retirements, marriages and transfers have painleady whitten work forces down to the smaller size required in untomated plants. A ridicultur over-simpliff-cation of the problem. In a ridicultur over-simpliff-cation of the problem. In a reliable we worker when the problem is a ridicultur over-simpliff-cation of the problem. In a ridicultur over-simpliff-cation of the problem is a ridicultur over-simpliff-cation of the problem in the cation of the problem in the cation of the problem in the latter category will have found following his category will have found followed been employed in industry have found followed been employed in industry have found followed by the category of the problem industry can be absorbed in the released from industry can be absorbed in the released from did the earlier machines, of which automation increases our standard of living, but the logical extension.

But the live rowlem is whether our econosist.

our standard of living, just as did the earlier machines, of which automated machinery is meanly the logical extension.

But the lip problem is whether our econolisty ment of the products of any the content of the products of any the necessary flow of the products of any the necessary flow of the products of any the necessary of the necessary o

Why swelter through summer with heavy beer?

BREW

Heavy beer is fine in winter. But summer's the time for living lightly...light clothes, light food, light beer. Holiday Brew is a very light drink, great for summer enjoyment. Doesn't fill you up, never tastes bitter. It's a welcome vacation from ordinary beer. Holiday is extra light in flavour and body. And the pleasure content is as high as other beers.

Holiday Brew-the only really light brew sold in Canada

Pinch Hitting

As happens so often in the dying weeks of the st, the sports program is a busy, and varied, one.

City and district ball teams are trying to survive in playdowns, while golfing, best racing, water skiling, metercycle raging and so on offer John Fan a wide variety of activities to choose from.

The grunt and groan fans get their chance to how? onight with a fine card at Memorial Arena. The wrest-ng midgets are in the main bout when Little Beaver of Roger Littlebrook tackle Sky Low Low and Fuzzy upid. Sam Stemboat meets George McCarther, while an Baillargood takes on 800 Leipler.

Saturday marks the busiest day of the week mmencing bright and early when some 118 go om Toronto, Bellsville, Kingston, Peterborough merous other clubs toe off at the Bay of Qu

The erroll will be the annual Buy of Quinte open field ay, won the late two 'passar by Whiterald's see lefty, from Thorpe. The bord Quinte olds has most of it bering ing in this one, but they will have planty of opposition come the visiting, garden.

A presentation dinner will wind up the pala M-fair in the eventual. The learnmant winner will re-order the Corbin Trusher and the top fear-man issue will get the J. 3. heard Trusher.

The scene shifts to the CNRA Park for a pair of ball nes in the afternoon and evening.

Belleville Bantams meet Kingston at 1.30 in OBA ydowns. Kingston took the series opener 7-1 and the al lads must win this one to survive.

Also at the CNEA, at six o'clock, Trudesu Motors clash with the Oshaya. Tear's in the first game of their Osha Intermediate "AA" serice. It promises to be a hard-fought affair. Jerry Generoaux, who threw a mo-hitter earlier this soason, will likely get the pitching nod for Trudesus.

Meanwhile, down Kingston way, Joyce Real Estate Ince
the Linestone City's OASA Sealor "B" club, Ace Motors,
in the second game of their judydown series, Joyces took
a 2-1 thriller here the other evening, on a late home run
by Treddy Batchelor, and well find the opportion that
much tougher on their home diamond. Game time is
all 5 at Mcgaffon Gladium.

And lest we forget the little fellows, the Braves and Sensiors, meet head on this evening at the Park-dale Playprounds in the second game of the Powwe baseball city finels. That till starts at 6-60 p.m., the Braves having won the first game, 1-6.

Still on baseball, Believille Peewees go to Kingston tomorrow afternoon for the deciding game of their set, at King's Court Park, beginning at 2.00.

The Woods-Horlock Juveniles meet Oshawa in the rd and deciding game of their OASA set in Co-ure, also tomorrow afternoon.

An Open House is being held at the Quinte Trap and Gue, Club Sunday and neighboring trap club shooters, as well as spectators, are invited.

Belleville's baseball Midgres play host to Peter-rough Quakers at the Fairgrounds on Sunday after-on at two o'clock. The Quinte boys was the first me of that OBA series 8-3 and can savance with a

The Canalian Slock National Outboard champion-ships will be held at North Eary. Consocon, 15 miles south of Truster, as Sunday, Drives from Casalia as due United States will. be competing for the title of Canalian champion in sight classes. Caouette Reveals Himself

CAOUSTIE REVOEIS TIMES!

Real Caoustie says that his political heroes
are Mussolini and Hitler.

This is not going to help the Social-Credit
Parker in Quebec or anywhere else in Ganada—
Most of the criticism, though, is likely to be
wide of the mark. The Socreds will get brandda Shads or Faccists and Opouette as a wouldda Shads or Faccists and Opouette as a would-

Nothing could have more plainly shown the distorted nature of Caouette's reasoning than his declaration that he admired Mussolini's qualities as a leader and regretted that he was Fascist; that he admired Hitler's conomic reforms an regretted that he employed his ideas for war instead of neace.

regretted that ne employed his does not war instead of peace.

It is like saying that one enjoys wine, but regrets the fact that it is intoxicating, or that one is a lover of sea food, but cannot stand the taste of fish.

Mussolini's qualities of leadership were what they were because he was a Fascist; his leader-ship was dictatorial in every characteristic. Hit-

ship was dictatorial in every characteristic. Hiller's economic reforms were designed for war;
all his ideas were abhorrent to the lovers of
peace and he abhorred peace.

How, then, can these men be Mr. Caoustie's
heroes when he says, and we believe him, that
he deplores precisely those achievements which
they themselves held in the highest regard'.
Probably what Mr. Caoustie really admires
to theyrore which Hitler and Mussolini imposed
on their countries. He falls to under without
force, without Practical and Mussolini imposed
to the countries. He had to under without
force, without Practical and Nats methods. He is
not the first man to make this mistake—there
were many in Reginni, in prewar days, who
felt that the fact Italian trains ran on time justified the use of mustat age as against the ing among all reem-money-men-takes more pour-ment of the pour-tained by the pour-pour pour-pour pour-pour pour-pour pour-tained by the pour-pour pour-pourtified the use of mustard gas against the Ethiopians and doses of castor oil for domestic Ethiopians and doses of castor oil for domestic critics. Mr. Caouette, however, has had the benefit of a costly demonstration of where this type of leadership can lead. He ought to know better than to still be admiring Mussolini and That he does not is a measure of his

pular and be "Mr. Taxtlon" too.

Donald Fieming never care within a country mile of catching costs that can be seen to the catching costs that without argument must have been the most unpopular France Minister of the last quarter exhibity or mortally be could be something of a charmer. For a Finance Minister, even warte and buman. mental capacity.

As for the Socreds, they should not be judged
by Caouette's wild words. But they should be
judged by a lengthy record of attitudes and

by Canasteka wild words. But they should be judged by a lengthy record of attitudes and policy declarations which, long before Caoustic joined them, mad it evident that the party could be susceptible to Fracets influences—by the anti-deminism of Baigor but have been an experiment of Baigor but have been an experiment of Baigor but have been an experiment of the susceptible to the susceptibl But It simply would not work.

He remained Dour Don.
And this very unpopularity became something of a political asset.

They made him into the government's whipping boy, the C-bilnet's seapergoat.

He was the donkey on which the public pinned the tail. WHO NOW!

But havas more than that,
He was, in political fact, the
Conservative lightning rod.
When some upopoular or controversial decision had to be
ing around for somebody to
lame for it. , who clue but
Donald Fleming?
He got to be to., the rountain for
he got to be to., the rountain signments that fall to any and
all governments. man who admires Hitler and Mussolini. But is will mean that its members are so susceptible to spell-binding oratory, so willing to accept binding whatever an acknowledged leader may ray, that they could provide the backing for some future would-be Cassar, who will admire Mussolini and Hitler without Mr. Caouetke' members are approached to the second provides of the second provides and the second provides are second to the second provides are second provides and provides are second provides and provides are second provides are second provides are second provides are second provides and provides are second provides are s Dob. He made such a 2002 get. was not much at dodging.
Stubborn kind of a guy, Just a graph of the subservation of the subserv possible reservations and will seek to emulate them, as a Fascist and as a war-monger.

Parents' Dilemma

Parents Dilemma
A psychiatris, Dr. Ronald E. Stokes of the Toronto Forensie Cilinic, has cautioned against interpreting every kindness toward children as a sign of perversion.
Dr. Stokes was apparently primarily concerned with the effect of police warnings about sex deriates an the atfluted or adults towards persons who approache children. Buth approaches, he says, can be selected to molest them. How the process of the pro

There is another angle to this question, with which, from what we have read Dr. Stokes does not appear to have dealt. This is the effect on children of warning them against strangers. This, it seems to us, will inevitably be reflected rins, it seems to us, will inevitatory be teneeved, in their attitude towards everyone except a small circle of friends. The price which they may have to pay through the years for this suspicious; withdrawn attitude could be high—in material benefits and, above all, in friendships and the ability to enjoy life.

Adversity, if a man is sent down to it by degrees, is more supportable with equanimity by most people than any great prosperity arrived at in a single lifetime.—Samuel Butler.

Ottawa Offbeat Fleming No Longer Fall Guy Down Don Now Dapper Dan

By RICHARD JACKSON

From The Oniarie Intelligencer's Ottawn Bu

From The Otstate inclulinguously Oldsow Borras OTTAWA — You would serve know the Sausty new Justice nister these days, the so-recently explest and often nour sad-k they know only specietyey as done Toolad Finning. He is as entirely changed man.

Like someholy suddenly reprieved.

Which, if you look at it the way he does, obviously, is exact-what he is.

man.
They hired a \$10,000-ayear public relations' specialiti to give him a new and
hoped-for popular image.
But it simply would not

all governments.

If a few rotten eggs of public condemnation were flying, they would call for downcast Don. He made such a lovely tar-

troublet.

He specialized in playing the He specialized.

Now be is gone to the peace and quiet of the Justice Department . . . the new happy-backey Donder Fleming. Iowing coff the firing line. the peace of the firing line. The special point of the firing line to the peace of the firing line. The special point of the firing line to day the first line of the firing line. The first line is the peace of the firing line. The first line is the first line of the first line is the first line in the f

get to take his place. Not as Finance minister, necessarily, but as the donkey for the pub-ile tall-pinning, the goat, the indispensable SOB who has to take the blame? Well, George Nowlan, the for-mer Revenue Minister, got the nod for Finance, But that does not make him "th."

Like somebody suddenly reprired.
Which, If you look at it the way he does, obviously, is exact.
Which if you look at it the way he does, obviously, is exact.
Which if you look at it the way he does, obviously, is exact.

Recrired from a sole-color building to the second of the control of th

him as they they grinned.

It's not going to be Finance Minister George Nowlan who takes the punishment as Cab-inet whipping boy. Then who? Watch the players and the pol-tical program in these exciting

Pinch Hitting

By Garry Mexicular
The University of British Columbia has offer
a for forming a Canadian ameteur heckey tea.
1964 Winter Olympics.

The team would be a national one, consisting of the university hockey players available.

It would be formed over a two-year period, giving comb plenty of time to test his players under pres-aud therefore to make any mossessy changes.

Rev. David Bauer, who is at St. Mark's College. UBC, Rev. David Basier, who is at St. mains over cost-coaches the university hockey team, has been saged as coach of the club. Bauer is a learned bockey. He comes from the Waterloo area and was coach as St. Michael's College team that won the Memorial

The plan has been proposed to the Canadian matters Hechny Association and will have to be ay-word by that below hotten sarything is official. We wide imagine that the CARIA is happy to receive usual offer, show that organization has bad considerable value for some time in idea; a top team that con-cess to the Cario and the constant of the con-cess to the Cario and the con-tension of the cario and the cario a

ordon Juckes, secretary-manager of the CAHA, has d Fether Bauer and other representatives to attend somer executive meeting of the CAHA; coming up reakend, where the plan will be considered.

Bauer, commoted by a Elichener reproter following amountments, revealed that the team would be shied from bonn-fide students who will go to the

The students may come from universities in many parts Canada and it is possible that one or two may transfer m schools in the United States. Some players may acholarship holders in Phys, Ed. sources, such as Dave sumbers and Soury Osborne, two better-tham-average for "A" players from Toronto.

The proposal coach feels that the pian will get blooming of major professional heckey men, as well that of top amaiours. He said that the pian weak p re-snichity college heckey and bring about bet-co-operation between collegue and the CAHA.

user explained that five or six of the players ex-to be with the Odympic team would transfer to USC all, with the remainder coming to the school in the 1963.

Part of the cost of sending the team overseas would alsed by subscription. Some money has already been mised, a fact that may help influence the CAHA's alon on the plan.

Time of Decision

Next week, schools re-open. Young Cana-dians face another year of the most important work they will ever have to perform preparing themselves for all the tasks which will confront them in the years ahead.

for some, this is a time of decision. Thousands of last year's students have found summer jobs and many of these find that they have the opportunity to remain at work instead of returning to school.

shots and many of these find that they have the opportunity to remain at work instead of returning to solve the second of the several properturity to remain at work instead of returning to solve the second of the second of

best way for our young people to protect them-selves against periodic lay-oifs and job insecurity is to get a good education, both in school and by trade training.

Generalities, however, do not always help Each student regards his circumstances as dif-ferent—and is right to so regard them. Thus each working teen-ager must make his or her each working teen-ager must make his or her own choice. Parents can, and certainly should, use their influence but no parent worth his or her salt ought to keep a child who desires to return to school from doing so, if family finances will permit it, and we doubt whether any value of course from forcing school stond any real good comes from forcing school attend-ance on a child who wishes to work.

Certainly only the extraordinarily dull child ought to start work before receiving some sec-ondary school education. Choices become most difficult for those who have completed their Grade 12 and who, without any intention of con-tinuing their studies past high school, wonder whether they should take Grade 13, or remain at whether they amond take ornate 13, or remain at work. Generally speaking, a return to school is the wisest decision. Nobody knows what the future may bring, in the line of opportunities or kindlefi interests. Some time later in life, more training may be indicated and lack of Grade 13 may prove a big obstacle. But some of those who have completed Grade 12, have found that year difficult and have found a job to their liking, with a future to it, might be well advised to

itinue working.

The important thing is to make the decision on the basis of what promises best for the future, not with regard to immediate benefits. Of course, in demanding that teen agers look

at the problem in this light, we are requiring that they have old heads on young shoulders. But most of them are bright enough to grasp the fact that, while the present seems important, the future is much longer.

Locking the Stable Door ...

The Trenton Board of Health reported last week that more than 1,000 persons in Trenton had been vaccinated for smallpow within a few days of the discovery of a smallpow case in Trounto. Figures for a normal period of the same length were not published, but we suspect the property of the same length were not published, but we suspect the property of the property of

that in a town the size of Trenton, fewer than teen people a week would see the need for vas-cination, (disregarding, of course, the international traffic brough the sid become they realize that the dissafers against which the precautions are aimed can actually happen. For the same reason, a contraction that the side of the side

, Nature sings her exquisite song to the artist alone, her son and her master — her son in that he loves her, her master in that he knows her.-James McNeill Whistler.

The impression given is not that Dr. Kelsey was lucky, or almost superhumanly astute. The impression, rather, is that she insisted on sound and proper procedures. It was her thoroughness, her conscientionness, that prevented unaumbered tragedles.

In looking at the situation in

tragedies.
In looking at the situation in Canada, it is hard to believe that a similar thoroughness here would not have had the same beneficial result. But in this country there would appear to have been certain weaknesses it the procedure. One important fact is that in-formation easting grave doubt upon thalldomide ought to have reached this country sooner. Not until March, 1982, did the

Dizzy Warns **Ambitious**

> 'Ottown Cities illustrious Dizzy Dean.

The illustrious Dizzy Dean, who is still listened to with respect when he discourses on the art of pitching, recently sounded a warning to Little League baseball players and their partialing themselves by trying actualing themselves by trying for who have-junde a study of these small athlites agree with him.

there small studies agree with him, more valuerable part of the young pitcher's body, it is found, is the clow. Sufficient statistics have now been gath-ered to indicate that when boys ranging in age from nine b if this range takes in the Little League group) threw too hard they run the rike of damatign opinion of the control of the quiring bospital treatment. Dis-locations are fairly frequent, and in some cases the elbow is he-tually broken. Some of these

wreck them."

And a university pediatrics professor remarks that "if those in charge would be less intent on winning games and more intent on having all children competent and otherwise, parti-

words feet such injuries."

The kids may not be disposed to listen to the doctors, but perhaps they will pay attention to Dizzy Dean, whose brilliant career came to a premature close because he unconsciously

Pinch Hitting

By Garly Alexander
Carl Mays, a scout for the Kaness City Athlets
had one of the fourther jobs in the major leagues but
in the era of the greats, such as Ty Cobb, Walt
Johnson, and the one and only "Babe" Ruth.

Mays was a pitcher. He was a good one, too, cong a won and lost record of 205-127.

"Ruth was to get \$3,500 a day weekdays, \$5,000 it played on Saturdays and \$8,500 Sundays," Mays said. was his unofficial business manager-banker.

*One weekday we didn't draw well and we had take \$600 from our own peckets to make up the be's \$3,500. We were sitting around, glum, and be asked us what was wrong. "We told him and he said, Gimme my cigar box.

"Fit just take the coarse stuff," he said, riffling ough the pile for the \$20, 350 and \$100 bills. Then tossed the bex to us. There was \$1,800 left."

Binys did a little beating of his own. During his years of major hearse pitching, he had just four ng seasons. His best year was with the 1921 Yan-s when he won 27 and test nine times.

Like so many others of the ers. Mays played to w once decked Cobb twice in one game and he still es the mark of his reward for that feat.

Mays then showed a reporter a foot-long sear on calf and thigh of his left leg. He also carries a mem-of Watter Johnson on his left ince, the result of an def fast ball he saw but couldn't evade. Mays and amon had some great battles and Mays held his own the win descriptions?

It was one of the few dark days in Mays' bright

How Canadian Nickel helps grow much needed food in India

Changes are coming fast in India, where the soil is overworked and weary. These changes include irrigation, modern farm equipment, and plants to produce nitrogen fertilizers. And Canadian nickel is helping. Nickel steels to withstand hard wear in modern farm machinery. Nickel alloys to resist corrosive effects of hot ammonium nitrate solutions used in the manufacture of fertilizers. Canadian nickel is helping in similar ways all over the world. The growth of nickel markets at home and abroad helps strengthen Canada's economy and helps provide more jobs for Canadians.

Plan Ontario Made Souvenirs

Premier John Robarts has announced that the Ontario Government will sponsor a competi-tion for the design of sourenirs characteristic of the pregime and will hold an exhibition next spring of made-in-Onjario souvenirs and handi-

sses great possibilities. The idea poss

Most souvenirs now offered visitors are little better than junk. One would expect tourists to welcome the opportunity of acquiring mementos which were either useful or beautiful.

whenever either useful or beautiful.

Perhaps, though, a word of eaution is necessary. Useful and beautiful articles are generally not cheep teymake. It may be that the tourts is now being offered what he wants — that all he asks is something cheap which will satiry the demand of his youngeries for a nouvenir of some bedemand of his youngeries for a nouvenir of some impossible is to be the control of the control of the properties of the control of the impossible to improve on the type of souvenirs now offered, many of them made in Japan where they specialize in the mass production of little

Jesder, or No. Two Jesder Control is Messalar to 5 and 10 For the adult, however, who wants some reembrance of an enjoyable holiday, something tter is required and common sense suggests that most visitors would prefer something actual-ly made in the province. There is no way of say-ing for certain how great the demand would be Thompson.

Thompson.

Obviously il hadn't occurred to him usull then that "co-leaders" aren't ne ce sarsily equals, for he went snorting serces the hall to his own smaller "co-beadquarters."

Il woold surprise nobody around Fertilement Hill If Caoswood reven to like hammer like way through a wall of his office into the next one to give him a two-room suite and place him. For the two more are rivial. for souvenirs of this type, since the availability of this kind of souvenir has not been widespread

anough to properly test the market.

Much depends on the ingenuity of Ontario designers in suggesting suitable souvenirs. If the designs are good, there ought to be enough enterprising manufacturers ready to provide a sufficient supply of souvenirs to test the demand. If the demand is brisk, we shall reap a double benefit — opening up a new market for goods made in Ontario and at the same time sending abroad a multitude of little salesmen, who will prove effective in turning the conversation towards Ontario and its vacation possibilities.

Taking Chances with All of Us

Dr. James A. Van Allen, who discovered the radiation belt which bears his name, has confirmed a report that recent U.S. nuclear tests at high altitudes have produced a second radiation belt around the world. It's effect is to "intensify greatly" natural radiation in the Van Allen belt.

Whether this result of the blast which could be seen from New Zealand to Hawaii will have any practical influence on the lives of most of us, we do not know — and we suspect that even scientists like Dr. Van Allen do not know either.

Almost any new discovery entails some risks. In the old days, though, these risks were limited to those making the discovery, or to those seeking to utilize it. More recently, scientists have been making guinea pigs of many of us without our knowledge. New medicines of example, are test-TWO RING CIRCUS
Then, while Thompson tried
to make sense out of their
wildly conflicting ideas on SoParlianent, Choosette cracked
ioleas in French with reporters
from the Gueber papers,
from the Gueber papers
from the Gueber
from the G TWO RING CIRCUS showingle, rew. menuenes, of example, are sea-ed on charity patients and possibly others. The other day, when the head of th Amrican Phar-maceutical Association said that his country needed legislation to prevent such testing without the knowledge or consent of patients, the head of the Canadian Pharmaceutical Association replied sorreced: several on inomposes statements.

Like football players scrambling for a loose ball, they pounced on questions, racing to get in first with the answers.

And when they didn't fastly contradict each other, they were they one "yes, butlengther they have been added to the contradict."

Thompose added was a same the Canadian Fharmaceutical association replied that testing of this nature was essential, since if the persons receiving new drugs were aware of that fact their reactios would be subjective. This may seem like a rather high-handed approach, but it pales into insignificance when we realize that the world's great powers are conducting ex-periments the results of which may affect every person living, without any certainty as to what the consequences of these experiments may be.

Picketing the Pickets

High school students in Samia are picket-ing the pickets who are pocketing the electrical contractors, who are not working on a \$1,200,000 addition to Sarnia's Central Collegiate because

contractors, who are not working on a \$1,200,000 addition to Surnia's Central Collegiate because didition to Surnia's Central Collegiate because the may be it is an encouraging sign.

During 1988, in Panama, a group of students deedded their schools would not be adequate for the coming year. They marched on the presidential guard, and the result was a three day fracas, in which Molotov cocktails, (quarte bottles full of goaline), were pittle against sub machine guiss. When the streets were cleared and the contract of the

and so has Esso oil heat

It's been 17 years since John last wore his uniform. It was around the same time that thousands of Canadians were able to install new, carefree oil heating equipment in their homes. Some of these faithful furnaces are now beginning to show signs of age. Time works both ways however, and many important improvements have been added to both heating equipment and fuel quality.

It costs very little to modernize your home heating plant. Maybe all you need is a new burner for your present furnace. Even a complete new oil heating unit costs much less than you might think. Everything you need is available on easy budget terms with the low interest Rsos Heating Equipment Finance Plant.

If you are considering modernizing your equipment, investigate all the angles, Discuss your problems with us and let us help you to continue to cujoy the safety, convenience and economy of Esso cil heat with modern heating equipment. Call your local Imperial Esso Agent or Distributor for complete information

Pinch Hitting

The Fort Hope Ontarios face elimination at the Paltgrounds Wednesday night when they tackle Sid Forsier's Keumors in the tifth game of the Lakesbore eball league finals.

The Kenmors, after dropping the series opener, have repared back with three wins in a row and hope to end it all for the visitors tonight. One thing is sure, the Ontarios will go out battling, if they do go out.

In all honesty, the Kenmors are the better bull club and if they play my to potential, should mandle Port Hope without too much trouble. Fort Hope is of intermediate classification while the Kenmers are in

And speaking of senior, the all-Ontario finals, between the Kenmors and Dundas, is slated to get under way on the holiday weekend coming up.

Believille opens the best-of-seven series in Dun-das Sunday afternoon with the second game here on Meaday at 3,60 p.m. The third till is also slated for the Belleville diamond, on Wednesday, September 5, with the fourth back in Dundas on the following Sun-

This series will be the first true serier basebal ayed here since the Batas of 1953 divided the pro-ncial championship with Oakville.

Ken Soden and his sickicks are hoping to complete their set with Dundas without interference from another "Hurricane Hazel". "Hazel" washed out the Bata-Oakville series in '35, marking the end of sealor baseball here up until this time.

Port Hope hasn't been able to do much about the Lakeshore half of the deal but Durdas and the senior title, well, that may be a little bit tougher.

The Peterborough Ornamental Swimmers, a water-show group that has wen national and international awards, will be the star attraction when the Betterille Kingmen Club presents a gala show this Wednesday at the Kinsmen pool.

Billied as the "1962 Musical Water Revue," the show should be a colorful and well-executed one to say the least. It's a two-hour show, getting under way at eight o'clock, and will include displays by a number of local precision divers, as well as the starry cast from Peterborough.

The Ornamental Swimming Club was first formed with a small number of awimmers back in 1944. Today it ranks near the top in its field in Canada, the United States and Mexico.

There are approximately 20 members in the club now and included among its victories in competitive swimming to the North American Champtonish for 1933. The club also won the Canadian-American meet that year, following up with a second-place in 1954 at the Pan-American Games in Mexico City. The Domicion Team champion-thips were added to the list latter that year.

Many other trephies have been added since then. The club made a good will four of England in 1818, Proving very popular, hembers of the club have performed at Manni Basech, Florida, Meralon, Niagara Falif, Milwanishee, as a matter of fact, just about everywhere that such events are held.

Singles, duets, groups of four and six . . this , club es just about any act of precision swimining and water liet that you can imagine.

It looks like a good show for anyone interested in

Bruno Sammartino, bidding for the World Heavy I weight Wrestling champidaship against Buddy "Nature Boy" Rogers off Toronto this week, will headline an all-star card at Memorial Arena on Friday, night.

Sammartine is classed as one of the top grappler to hit, the wrestling scene th some time. He will need to be in Friday's main bost for he tangles with none other than Dick "Buildog" Brower.

This one promises to be a dandy and two other ex-

The sent-fleat will be a fag-team match, pitting the bloade beenhers from California, Bob and Steve Stanlee, against Sam Steamboat and Jean Balliargeon The latter pair are well knewn for their pased and know-how. Look fee the Stanlee burs to get blonde curis mused in this one.

There shouldn't be a dull moment from nine

Far From Sloppy Early Monday morning the U.S. fired from Cape Canaveral, Fla., a space probe aimed at Venus.

Cape Canaveral, Fin., a space probe almod at Ventus.

We must be supported by the support of the

than an hour and a half. The Yanks were shooling at a planet, almost as big as the earth.

And so they laugh.
They should not. For their sin they deserve to be introduced to a very short, and youstly world erroneous, course in mathematics.

The probe will travel 180,000,000 miles before it reaches the vicinity of Venus. If we consider this as the radius of a circle, then the probe side this as the radius of a circle, then the probe fore it reaches the vicinity of Venus. If we consider this as the radius of a circle, then the probe by Dec. 14 could have reached any point on the incumerance of this circle. This circumference would extemd-f.130,000.000 miles. An error of 600,000 miles than sepressent step circumference would extend-f.130,000.000 miles. An error of 600,000 miles than separation of the incident hundredth and the properties of the consideration of the control of the co

whitening by them at some 17/50 miles an house, which which may be me a some 17/50 miles an house. It would seem that the titning of this mile and to be might all the miles and the miles and the seem of the see whizzing by the

motor by a signal from the global, as all the probe's course. Rather obviously, this ability to manoeuvre, to change course in space, is essential before any true manned voyages of space discovery can be made beyond the immediate environs of earth. That the U.S. has already devised a method of achieving this manoeuvrabil-ity, even in small measure, would appear to be of high significance.

Backward, Turn Backward...

SOCKWATG, IUIN DOCKWATG...

Sunday, a CNR steam engine train ran
from Toronto to Picton, for the benefit of the
Upper Canada Ralway Historical Society. The
CNR reports a growing demand for trains pulled

WHAT'S MOST REAL IN REAL ESTATE?

When you sequire a new home, invest in a property or a business . . . what is the one most important thing to occoren yourself about? We'd say It's VALUE . . real, lasting value. Tou'd never forgive yourself if you lated re-alized you'd paid too much . . . or foreseeable events caused sharp detrectation.

Enowing what makes a property hold and increase its value through the years is our busi-ness. And that knowledge is at your service . . . D. T. STORK

Pinch Hitting

No. Aunt Martha, it's not the aftereffects of

The possesser of a wonderful pair of legs, Sammy who now halls from Picton way, had a shot at big-time hockey with the Deroit Red Wings and also saw action in the American League.

He later did his puck chasing with Belleville and ingrious senior clubs, as well as Point Anne, Pictor and Napance of Intermediate ranks.

Sam was a good man with a round-house curve when me to chucking a baseball too.

Softball? Well, he was binnedf a batting championship with the Point Anne Cementanen a few years back. Sam hit around 406. If this reporter's memory is correct, and most of his hits were of the infield variety, where those legs made the difference between as hit and just another putous.

Good legs still play a major role in Sammy's sporting id but its not his own he worries about these days.

Our smiling Mr. Mulholland is a salky driver and the lers he takes great pride in these summer even-thrs are those of a good black mare by the name of "Miss Cheer Grattan".

Sam's father and brother Reg. are both in the same ort and it was Sam Sr. who got Sam Jr. interested in sining fillies about five years ago.

Given a choice between handling the young, in-rienced "Gratian" or an older, more learned mare, mmy took the youngster. The owner was, and is, r, Len Coulter, of Verona, near Kingston.

Sammy worked with the filly until she now rates as of the most promising pacers in this neck of the woods.

Sammy started driving seriously last year and his mare has never known another driver. She responds to her master's touch of the reins with the best she's got, And apparently that is plenty.

"Miss Cheer Grattan," in the second race of her eer, last year took fourth and fifth spots in the two am Walker Stakes heats.

In this year's edition of the same race, the Mul-liand-Gratian combe took a back seat to none.

A comple of weeks ago they won both heats of the \$500 stakes at Gananoque for Mr. Coulter in times of 2.12 and 2.11:4. That's for one mile.

That 2.11:4 heat was the fastest of the mare's cureer just two days later in Kingston, she turned in another

Mulbolland said after the Kingston race, "I had er at 2.12 in Picton but I don't think Len (Coulter) ellered me. She was even better 14 Gananeque but I m't sure she could de it again today."

Just for the record, the mare is four years old and the driver is 32. The total has turned out to be a lucky one for Mr. Coulter, who said after her Kingston win that Miss Cheer Gratian is not for sale at any price today".

That's pretty high respect for a horse and the fact that Coelier leaves his prize in the hands of Sammy shows that he is equally proud of the handler's ability too — both driving and training,

The sleek mare is actually just beginning on what d be a great career.

Mulholiand guided her to a third place finish here in Belleville at one of the Quinte Riding and Driving Club meets early last season and she has never stopped

She followed up with seven seconds and was out of money only four times in 20 races last year.

"hiss (Graitan" won her first race in King-om this state, Mr. Coulier and Mulholland are anning now for a number of other meets where they, spect their pet to ahow her heels to the pack.

H-m-m-m, must keep my eye peeled. Should this pair turn up again at one of the local meets yours truly might even dip into the toe of ye olde sock to place a small bet.

New Housing Problem

The other day the Sudbury Star ran a car-toon on its editorial page, the top half showing a woman jumping for joy and a real estate agent shows her a dilapidated shash, the fottom half depicting the same woman borning a neat new home, while she studies a long list of available

home, while she studies a long list of available properties for rent. The extroom was entitled Tchanging Times. While things have not yet come to such a pass in Belleville, all one needs to do is to compare the compared to the compared the same and the compared the same and the compared the compared to the compared the same influence is being here. Nor is this trend conflued to rental phoperties. Indeed, it is even stronger with respect to the supply of homes for sale. Elsewhere on this page appears an article by William Gold of the Stratford Beacon-Berald on the same day as we noticed the Suddury cartoon. What Gold says of Calgary is true of Belleville; while dozens of new lonest are erected, owners of existing homes have described from the Barton of the compared to the

Little or nothing need be added to Gold's remarks on those aspects of the problem with which he chose to deal. What interests us here is which he chose so deal. What interesse us here is a facet which he only mentioned in passing—
the problem of the construction industry with
the arrival of a day when it is possible to agy, in
the words of the Sudbury Star cartoon, "Soon
no scarcity of dwellings in city."

no scarcity of dwellings in city.

As long as the Federal Government continues its present housing policy, construction
workers have little reason for uneasiness. There
is a powerful influence working in their favor—
a thirting construction industry is one of the
best remedies for unemployment, since it creates
a demand for workmen in a wide yardey of
trades and promotes the sale of an equally wide
variety of mannfactured products, both those
used in construction itself and those necessary
or appropriate for funnishing new homes.

variety of manufactured products, both those used in construction itself and those necessary or appropriate for furnishing new homes. But a government faced, as the Federal Goggrament is today, with the necessity for economy, must surely include some who will look askance at a program which is producing more houses than are actually needed — and that will be the situation if home-building continues unabated at its present pace for a few more years, unless there is a large influx of immerrants.

Aside altogether from the economic neces-sities of the day, any continuance of present policies is certain to expose the government to pressure from owners of existing houses who, possess a Certain to expose the government to presume from owners of existing houses who, repeated from owners of existing houses who, repeated from the second of the control of the cont

Yet, precisely for the reason that a booming construction industry is such an excellent stimulant to business generally, a lagging construction industry eas effect and the precision industry can effect and the economy. In the final amplitude participance of the economy. In the final amplitude participance of the economy in the final into or economy can take up the slack between our needs, or desires, and our ability to pay for them.

Thus the government is facing, or will shortly face, the necessity of a truly agonlying re-appraisal of its housing program.

No Traffic Woes

The Canadian Press last week circulated a report of two women who drove their amphibious car across Lake Ontario, from the New York side, to land in the middle of the CNE water. side, to latin in the middle of the CNE water-show. This leaves the coast clear for one more publicity stunt, but we suspect that next year, after someone has driven an amphibious boat through the Prince of Wales gate, publicity seekers will be hard put to find a way, to hake

People who arrive by satellite will not be considered publicity seekers though: they're just the lucky ones who are fortunate enough to find a way through the traffic.

Northport Canning Factory Is Only Plant in Canada To Can Citrus Fruit Juice

Oshawa Boer War Veteran Dies in Toronto

OSEANMA (CF) — Arthur Hatch, 80, one of the few re-maining Golssen Bore Wer ver-eram, died Wednerdry in a Torondo hospital.

Mr. Hatch a survivoy of the immous Biege of Ladynenith, had recently returned from Ottawa where he had attended the 60th anniversary of the end of the Bore War.

Above plant at Edgewater Canners at Northport on Bay of Quinte is only one in Canada which cans reconstituted orange and grapefruit juice from Florida concentrate. Plant, with 22,000 square 76ct, was started in 1938 as a conventional canning plant

Fork lift truck is used to stack cases in temp ture-controlled storage room. Here lift truck is placing pallet of cases on ceiling-high pile.

Piant secretary Mrs. Norene Pulker displays cans of reconstituted orange and grapefruit juice canned at Northport canning factory.

Pinch Hitting

Joyce Real Estate, riding the crest of a three-game winning streak in OASA Senior "B" playdowns, will play hest to the Oshawa" Hefferings's Imperials at the Fairgrounds tonight at 8.15.

The Real Estaters, after ousting Kingston in a pai arillers, had a close call in Oshawa Tuesday night till pulled out a 5-4 victory in this series opener.

an pulse out a 3-4 worvey in this sters, opener. But don't count this Onlawar club out yet. They are commonct child if ever we naw one.

The HEITERING dropped their series opener is . Peterborough too but won the next two games. And took how they did it in the final once! They trailed 18-7 with two onl in the ninth inning and prempty secored air rais for a 13-13 decimal.

Against Joyces, Heffering's fell behind 4-0, came back to lie it 4-4, went behind again and then loaded the bases three times in the final four frames. It took a tremendous effort by Pat Marsele to get that key victory.

We never saw the dusky veteran threw any harder than he did after relieving Dong Ellis Tuesday. And he needed to de just that for the least historia hall, committing five errors and having three key hall, committing five errors and having three key beautiful hall multil the matter section. The relieve-ed sait. With good support is should have been hit veters.

Maracle will get the starting nod tonight while sawa will likely counter with lefty Reg Hickey, a tricky cker, with a baseball windup. He struck out seven of winners Tuesday after taking over half way through

TRUE HEAVYWEIGHTS

Top billing goes to the encounter between Bruno masertino, highly rated Italian Hercules, and Dick and Dick with the property of the property of the property of the property aware. Semmartino, 285 pounds, is reputed to be the top overful wretter in the world. However, the way were has manhandled all opposition in the past he has be a close second to the powerful Italian in the muscle so a close second to the powerful Italian in the muscle

The semi-final will be a four-man tag team en-glement. The Stanles Steamers, Big Beb, 240 inds and brother Steve, 245 pounds, will take on a Steamboat and 250 pound Quebec ace, Jens Ball-

The opening encounter will have Gino Marella, 310 nd Rochester giant, matching grips with the 250 nd Arvida Assessin, Stan Satasiak.

It adds up to approximately 2,105 pounds of wrestling of on the hoof throughout the evening's activity. The w opens at nine o'clock.

NORTHERN ELECTRIC PROVIDES Ø

FM FOR CJBQ

We are pleased to have been able to completely equip and install CJBQ-FM, and to enable the Quinte Broadcasting Co. Ltd. to extend their service to the Bay of Quinte area.

The FM transmitter supplied to CJBQ is the first of its kind in Canada, and uses an advanced design to ensure perfect sound reproduction.

CJBO-FM has our best wishes for success, and we sincerely hope that all will enjoy the perfection of FM sound.

Anglo-Saxon Majority Shrinks

Alan Thomas, director of the Canadian As-sociation of Adult Education, told a conference on intergroup relations that Ontario's domin-ant Anglo-Saxon majority is diminishing.

ant Ango-saku majorny is unmaning.

Thomas told a Port Eigin gathering that the
Angio-Saxon majority still controls employment,
education and high offices, that it hates by see
its power croded, but that it is "extreating into
an intellectual and cultural suburbla," whatever

its power eroded, but that it is "retreating into an intellectual and cultural aburbis," whatever that may mean.

Anglo-Saxons now comprise 59 per cent of the province's population, "rench-Canadians 11 per cent."

Anglo-Saxons may be as to whether these percentages mean might as to whether these percentages mean might as to whether these percentages mean might as to whether the percentages mean might as to whether the percentages mean might as the province of the second of

Belgian Supports U Thant

Belgium has pledged support of a Congo peace plan proposed by U Thant, acting secre-tary-general of the United Nations. The plan, designed to end Katanga's seco-sion, calls for a new federal constitution which would unify the Congo, yet leave Katanga a de-gree of autonome.

would unify the Congo, yet leave Katanga a de-gree of sultonom.

A federal constitution was, at the first, the extent of Katanga's demands. Fattree Lummins opposed it, on the reasonable grounds that it would divide, rather than unify, the newly-liberated country.

It'may be that U Thanth has decided that lifd a load is better than no bread, that a Congo in which Katanga is a member of a federation of provinces is better than a Congo deprived of any assistance from its weithlest province. Or it may be that U Thanti's federal plan differs in important purticular from that at first advo-cated by Lumumba's foes. Wilhout much great-er knowledge than we possess it is impossible to er knowledge than we possess it is impossible to judge which of these alternatives is the closer to the truth; and in any event more depends upon the way in which any constitution is ap-plied than upon the actual wording of the con-stitution itself.

stitution itself.

If, however, U Thant envisages developments which will eventually unify the Congo,
then Belgium's support, while welcome, omes
a little late. The Belgians could have prevented
many seary months of strife if they had really
supported UN efforts from the first. Bug genhape date, this present pledge of support is no
more than another case of Jip acrives, such as
the Belgians have on exceeding. more than another case of jip service, such as the Belgians have on occasion given the UN in the past And even if the present piedge is given in all sincerly, it remains to be seen whether the Belgian Government can force Union the Belgian Government can force Union the Design of the Company of the Company in the Case of the Company of the Company Interests are more powerfur belgians to the Company in the Cango, nothing can be taken of graited until it has been transformed from a program and a piedge into a fact.

and a pledge into a fact.

I am the inferior of any man whose rights I I am the internor or any man whose rights I trample under foot. Men are not superior by reason of the accidents of race or color. They are superior who have the best heart — the best brain. — Robert Green Ingersoll.

I should fancy that the real tragedy of the poor is that they can afford nothing but self-denial.—Oscar Wilde.

IS HIS opinion any better than yours? That's a question that faces every thoughtful man or woman a dozen times a day. The answer depends on the fund of general information possessed by every individual and his ability to draw on it to form reasonable conclusions. As for the fund of information, few of us have time or opportunity to gather it in libraries or institutions of learning, We do have, however our newspapers that bring us the happenings, what is thought and said everywhère in the world. Our newspapers provide us with a continuous flow of the informa-

tion on which sound opinion is based,

Pinch Hitting

We have all, at one time or another, heard some friend remark while passing a golf course, "What bang do those silly people get out of chasing a little while bell all around that big field?"

Yours truly can never remember coming out with a statement like that but on the other hand we never felt too strongly about the game in the other direction either. Up until three years ago, that is, when we first got a tarte

Once a person sinks his teeth in the ever-growing sport, he has had it. If you think the 'fin bur hangs on, wait until the old gelf bur gets a grip on you.

We have no explanation for the sport's popularity oth-er than the fact tha tit offers a challenge to any one who tries it and at the same time serves as a form of relaxation, at least for this individual.

But send the same chap out for another round to-prow. He will likely come home with a smile and a hiss. his sweet little wife and cassaily mention that he broke for the first time today. Somehow, the lost bails will forgotten and so will the bad back.

register and so will the son seen.

No can has to be our expert to exley this rame, he that from persons who knews. You may feel throwing years clash the parkeys can after you to be soon to be soon

The answer to this problem? Very simple. Just one good drive, straight and true down the middle, about 175 or 200 yards out marbe, and man, you will have forgotten that you ever played that first hole, or at least you will be sure you know how to birdle it the next time around.

The game really gets in some propie's blood more than others. A friend of ours, about to rater hospital for an operation this spring, was twice as worried about what the layoff would do to his golf game as he was about the operation itself.

He was back on the course a month before the decier O.K.ed it and what's more he has ellipsed about ten strokes per round off his score shoe returning to the game. However, surgery is not recommended as a sure-fire way to lower that handlesse, so dea't rush to year nearest Dr. Caser. He will likely be out on the

Golfers are the butt of many a joke and smart crack in those unlucky persons who have never tried the ne. (And from some who have).

A fee near the readifie always has at least one shuned-skin, would-be Gary Flayer shaking his fits at pasting moderatis. The reason likely is that said motorist couldn't reads shouting "fore" in he went by, e asking some silly question such as "where did you we your baseball gives".

Lovers of the game soon get used to these kind of tarks and very few actually throw their driver through car's back window. Most of them just threaten to.

one car so occu wandow. Most of them just threaten to.
There are a number of steek chickense jets on
the circuit, (sterry Frank, can't new "gotherly") such
as the one showt the follow who cane home from the
sums three hours late. The little left saked him why
and effered her erangalaty when he recible, "George
drypped read on the find held." "For'll serve knew
how arthal it was." he asserted her. "It was calculated
forered little the half — drag George?"
George? Hill the half — drag George?

You may be like this duffer and never come close to (We are still trying to break 190) but you sure can a a lot of fun trying.

A starry young squad, wearing the colors of the leville Midgets, is the only miner team left repre-ting this city in quest of a provincial championship.

Soule was reguted to have a strong ciple and provide when his bory clouded six hence runs in the final generalization recognition. The team played is the South Restructure, the baseball lesgue during the regular schedule stage has been been as the bory certainly provided from the experience gained against older players.
